

Iriso Watering Kit

INSTALLATION AND OPERATION Q18A(14)

Components

12 Plant Kit	20 Plant Kit
12 Iriso Drippers	20 Iriso Drippers
8 metres Tube	16 metres Tube
11 T Connectors	19 T Connectors
1 Tank Connector	2 Tank Connector

Attention - if the drippers are being used on sloping ground, in order for them to operate properly please check that the water level in the container supplying them is **no more than 1.5 meters** higher than the lowest dripper. This will ensure that the water does not overflow out of the top of the dripper.
 If using on a steep slope then more than one container will be necessary.
