

## Zero Waste Box<sup>TM</sup> Accepted Waste Guidelines

The purpose of this document is to provide TerraCycle customers a detailed overview of the accepted waste for each TerraCycle Zero Waste  $Box^{TM}$  available for sale on our website. The guidelines include the following information for each product:

- **Zero Waste Box<sup>™</sup> Name:** name of product, listed alphabetically. Note the name of the box may vary depending on region.
- Waste Stream Practical Description: outlines the types of material and products accepted for the associated Zero Waste Box<sup>™</sup>.
- Waste Stream Technical Description: provides a more detailed summary of material composition and specific polymers recycled for the associated Zero Waste Box<sup>™</sup>.
- **Restrictions:** outlines any specific material not accepted for a given Zero Waste Box<sup>TM</sup>.

**REGARDING HAZARDOUS MATERIAL:** It is the responsibility of the customer as the waste generator to ensure that the waste sent to TerraCycle complies with the accepted guidelines and applicable, local regulation. TerraCycle does not accept any regulated or hazardous waste for recycling, unless otherwise specified.

Zero Waste Box™ (product name may vary by market)	Waste Stream Practical Description	Waste Stream Technical Description	Restrictions
#6 Rigid Plastic Cups - Zero Waste Box™	Empty and Used #6 plastic cups, Polystyrene disposable cups.	Empty and Used Disposable drink cups made of thermoplastic polystyrene (PS).	Does not accept other types of beverage containers, such as, drink pouches, drink boxes, yogurt cups, or any other food packaging, such as, plastic bags or plastic containers. Does not accept heavily soiled, containinated, or biodegradable materials.
3D Printing Materials - Zero Waste Box™	Used Thermoplastic 3D printing spools or printing scrap	Used Thermoplastic 3D printing materials made of acrylonitrile butadiene styrene (ABS), polystyrene (PS, HIPS), polyolefins (PP, PE), polyamides (nylon), polyurethanes, and polyacrylates	Does not accept compostable plastics (e.g., PLA, PHA, PHV, PHB, etc), 3D printer parts, 3D printers, electronics, printer cartridges, bamboo, wood, or paper materials.
Action Figures - Zero Waste Box™	Used Plastic action figures, small plastic dolls, small plastic toys, and plastic figurines.	Used toy figurines made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal.	Does not accept toy packaging, electronics, toy cars, poly-fil (plush or stuffed) toys, cardboard, paper, wood, bamboo, biodegradable, or contaminated material.
All-in-One - Zero Waste Box™	Any Brand of used and empty items, including, Fabrics, Pet Products (Non Food), Shipping Materials, Home Clearning Accessories, Coffee Bags, Water Filters, Party Supplies & Dining Disposables, Kitchen Gear, Coffee Capsules, Books & Magazines, Office Supplies & E Waste, Art Supplies, Clothing & Accessories, Plastic & Paper Packaging.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyaersyclicis, polyamides, polyaerionates, elastomers, polyesters, celliudica cactate, polyacetal, metals. Also used and empty items made of cellulose fiber (e.g., paper, soda lime glass, and textiles consisting of synthetic and natural fibers, and metals. String lights with LED diodes only.	Does not accept universally regulated light bulbs (fluorescent, incandescent or mercury light bulbs), rechargeable batteries, hazardous materia, regulated waste (e.g., pressurized canisters, lithium-ion batteries, light bulbs, oil-based paint, solvents and pesticides), organics, broken glass, soiled diaper, biodegradable materials. Textiles may not contain filling (pillows, coats, blankets), liners, shoes, purses, bags, hats, accessories (eg. belts, jewelfy, etc.). Coated fibers, leather, fur are not accepted.  Do not send in medical or biomedical (e.g., prescription medicine, sharps) wastes. This includes material contaminated with blood or bodily fluids that originate from health care facilities,
Aluminum Cans - Zero Waste Box™	All brands of empty aluminum cans, including drink cans, food cans, can tabs and tops.	Empty cans made of Aluminum.	hospitals, physicians' offices, dental offices, blood banks, veterinary clinics, research laboratories, etc.  Does not accept glass, plastic (e.g., straws, bottles, etc.), or can openers.
Art Supplies - Zero Waste Box™ Arts and Crafts Waste - Zero Waste Box™ Creative Leisure Waste - Zero Waste Box™	Any Brand of used and empty art supplies including, synthetic brushes, empty flexible plastic paint tubes, plastic bottles, plastic watercolor palettes, easels, markers, pens, or tape dispensers.	Brushes made of polyamides (Nylon), polyolefins (PP, PE), polystyrene (PS). Empty flexible tubes made of PE, PP, and Aluminum. Palettes made of PP, PS. Plastic assels made of PP, PE, PS, acrylonitrile butadiene styrene (ABS). Pens and markers made of PP. Celludose Acetate, metal, Nylon. Tape dispensers made of PS, PP, PE.	Does not accept office supplies, such as, hole punchers, staplers, paper cutters. Does not accept wood, crayons, charcoals, natural sponges, pair, solvents, flammable substances, or sharp objects.
Baby Food Pouches - Zero Waste Box™ Food Bottles-Zero Waste Box™ Single Serve Beverage Packs - Zero Waste Box	Any brand of empty flexible plastic baby food pouches.	Pouches made of multi-layer thermoplastic polymers classified in the group of: polyolefins, polyesters, polyvinyl, and polyamides; may include thin Aluminum layer.	Does not accept heavily soiled, contaminated, or biodegradable materials.
Baby Gear - Zero Waste Box™ Baby Equipment - Zero Waste Box™	Any brand of empty, non-electronic baby care items, including, small or collapsable baby gear (e.g., play tables, play chairs, changing tables, diaper palls, security gates, booster seats, training potties, baby stools, baby steps, toy organizers, bouncers, jumpers, mobiles and swings), feeding bottles, pacifiers & teethers, play mats, bottles, bottle caps and collars, sippy cups, plastic dishware and utensils, non-electric breast pumps, pacifiers, small plastic toys, teething rings and plastic bibs.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal. Also used and empty items made of fabrics (without polyfil), soda lime glass, synthetic rubber, foamed polymers, and metals.	Does not accept other types of baby-related waste, such as diapers, light bulbs, electronics, batteries, hazardous material, organics, broken glass, heavily solied items, or compostable plastics. Does not accept bibs, towels, furs, cloth diapers, or textiles that contain filling (pillows, coats, blankets).
Bath and Shower Accessories - Zero Waste Box™	Any brand bath and shower items, including, used and empty bath and shower accessories, shower caddies, curtains, bath play toys, loofahs, soap dispensers, soap dishes, plastic bath mats, bathub safety rails, and shower heads.	Used and empty bath and shower accessories made of thermoplastic polymers classified in the group of: polyolefins, polystyrense, polyvinyl, polyacylics, polyamides, Polycarbonates, elastomers, polyesters. Also, used and empty items made of metals.	Does not accept electronics, batteries, light bulbs, clay, glass, wood, bamboo, biodegradable materials, abrasive scrubbers, pumices, aerosols, solvents, cleaning chemicals, nail polish, and heavily soiled, contaminated or hazardous materials.
Bathroom Separation - Zero Waste Box™	Any non-electric bathroom items, including, Cleaning Accessories, Bath And Shower Accessories, Flexible And Rigid Plastic Packaging, Storage Containers, Personal Care Accessories, Paper Packaging, non-prescription Blister & Bottle Packaging, Fabrics & Clothing*	Used and empty bathroom items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyocarylics, polyamides, polyacronates, elastomers, polyesters, cellulosic acetate, polyacetal. Also used and empty items made of metals, cellulose or kraft fibers, soda lime glass, and textiles consisting of synthetic and natural fibers.	Does not accept leather, luggages, prescription drug packaging, biomedical waste or sharps, aerosols, perfumes, nail polish, acetone, paints, solvents, paper towels, any organic waste, electronics, batteries, lithium-ion batteries, light bulbs, wood, bamboo, blodegradable plastic, and heavily solled, contaminated or hazardous materials. Textles may not contain filling (e.g., pilliows, coats, blankets).
Beauty Products and Packaging - Zero Waste Box™ Cosmetics Packaging - Zero Waste Box™ Hair and Body Care Accessories - Zero Waste Box™ Bubble Skincare Packaging Recycling Solution Mad Hipple Packaging Recycling Solution Nativa SPA Packaging Recycling Solution Timeless Skin Care Recycling Solution	Any brand empty personal care, beauty care, skin care, hair care, or cosmetic packaging, flexible plastic, multilayered flexible packets, pouches, sachets, flexible plastic tubes, multilayered tubes, aluminized tubes, rigid plastic, pots, pump bottles, spray bottles, igrs, complex closures, plastic bottles, lip balm tubes, soap dispensers, body wash bottles, lotton dispensers, caps, shampoo and conditioner bottles, hair gel tubes, triggers, mixed rigid packaging, lipstick cases, lip gloss tubes, mascara tubes, eys shadow cases, bronzer cases, foundation packaging, powder cases, eyeshadow tubes, concealer tubes, concealer sticks, glass containers, metal containers.	Used and empty beauty products and packaging items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacyrlics, polyamides, polycarbonates, elastomers, polyesters, cellulosia cacteta, polyacetal. Also used and empty items made of soda lime glass or metals.	Does not accept aerosols, pressurized cans, electronics (e.g., blow dryers, straighteners, etc.), perfume bottles, nail polish bottles, solvents, wooden eyeliner pencils, partially full /full packaging (e.g., tubes, jars and containers filled with nail-polish, lolidin, soap or ointments), cardboard, wood, bamboo, biodegradable, heavily soiled, contaminated, or hazardous materials.
Bedroom Separation - Zero Waste Box™	Any non-electric bedroom items including, Luggage & Travel Bags, Eyewear & Jewelry, small Baby Gear items, Plastic Packaging, Cleaning Accessories, Personal Care Accessories, Paper Packaging, Fabrics & Clothing*, non-organic Pet Products, and Books & Magazines.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polywinyl, polyacryfics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal. Also used and empty lems made of metals, cardboard, paper, and natural or synthetic fibers.	Does not accept other bedroom waste, including, shoes, aerosols, perfumes, nail polish, chemicals, solvents, paper towels, any organic waste, electronics, batteries, lithium-ion batteries, light bulbs, wood, bamboo, biodegradable plastic, and heavily soiled, contaminated or hazardous materials. *Textiles may not contain filling (pillows, coats, blankets).
Binders and Presentation Materials - Zero Waste Box™	Any brand and size of empty binders, notebooks, uncoated cardboard displays, paper, and plastic page protectors.	Used and empty binders made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyamides, elastomers, polyesters, polyacetal. Also, notebooks made of cellulose, kraft, and metals.	Does not accept other presentation products, such as, electronics, writing instruments, art supplies (paints, oils, brushes, etc.), wood, bamboo, biodegradable plastic, heavily soiled, contaminated, or hazardous materials.
Books, Magazines, Notebooks and Jotters - Zero Waste Box™	Any brand books, magazines and notebooks, including, Comic Books, Cook Books, Text Books, Manuscripts, Fully Bound Books, Spiral Bound Notebooks.	Any used item made of cellulosic fibers.	Does not accept Writing Tools (e.g., pens, pencils, etc.), electronics (e.g., E-Book Readers), heavily contaminated, or hazardous materials.
Bottle Caps	Any brand of plastic or metal bottle caps.	Plastic caps made of Polyethylene, Polypropylene, Aluminum, Tin, or Steel.	Does not accept glass bottles, plastic bottles, liquids, or other types of beverage packaging.
Break Room Separation - Zero Waste Box™	Any non-electric break room waste items, including coffee and tea accessories (non-paper filters, tea strainers), non-biodegradable plastic dining disposables (plastic cutlery, plastic and foam cups), flexible and rigid plastic packaging (containers and bags), non-coated paper packaging, single serve coffee pods/capsules.		Does not accept cellulose based products and coated paper (napkins, paper towels, paper plates, lissues, coated paper packaging), electronics (unwanted coffee makers, appliances), hardware, wood, bamboo, biodegradable plastic, heavily soiled, contaminated or hazardous materials.
Candy and Snack Wrappers - Zero Waste Box™ Crisp Packets, Snack Packagling and Sweet Wrappers- ZWB Fullgreen Packagling recycling program Candy, Biscuit and Snack Packagling - Zero Waste™ Box Soft Plastics Waste - Zero Waste Box™	Any brand empty, mixed flexible plastic packaging, candy and snack flexible packaging or wrappers.	Empty packaging made of flexible multilayered thermoplastic polyolefins (PC) PE), polyester (PET, PES), polyamides (PA, nylon); heavy gauge Aluminum metal. Multilayered flexible packaging that contains <40% Aluminum layer.	Does not accept paper-based wrappers, wood sticks, blister packs, food waste, or cardboard master cartons (which are typically recyclable at curbistle). Does not accept heavily soiled, contaminated, or biodegradable materials.
Centrifuge Tubes & Rigid Lab Plastics - Zero Waste Box™	Any brand of empty and non-hazardous rigid lab plastics, including centrifuge tubes, plastic bottles, trays, vials, and beakers.	Empty and non-hazardous items made of thermoplastic polymers classified in the group of: polyolefins, polyesters, and polyvinyl.	Does not accept any bio-hazardous waste plastics such as, medical waste heavily soiled or contaminated (hazardous) material; including, materials contaminated with blood or bodily fluids, materials that originate from health care activity, such as activities related to medical care, physicians' offices, dental, blood banks, veterinary, research laboratories, etc., or partially full containers, tubes, bottles, sharps, broken beakers, broken vials.
Cleaning Supplies and Accessories - Zero Waste Box™	Emply non-hazardous cleaning Items and packaging, including: plastic browns, mops, buckets, synthetic ty cleaning pads, synthetic wet cleaning pads, dust pans, empty spray bottles, emply detergent bottles and nozzles, empty detergent bottles and rozzles, empty detergent bottles, lid tops, and dryer sheets.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polyacrylics, polyamides, polyesters. Also used and empty items comprised with metals.	Does not accept aerosol cans, solvents, other household materials, such as, drain cleaners, oven cleaners, tollet cleaners, disinfectant, degreasers, all-purpose cleaners, detergents, bleach, fabric softeners, wood, bamboo, or any blodegradable, heavily solled, contaminated, or hazardous materials.
Coffee and Tea Accessories - Zero Waste Box™	Any coffee or tea associated Items or packaging, including: coffee canisters, frothing pitchers, coffee measures, disc carousels, filters, carafes, non-electrical grinders, coffee presses, decanters, lea tools, tea pots, non-electrical tea makers, tea strainers, and cleaning brushes.	Used and emptyltems made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacrylics, polyamides, polycarbonates, polyeaters. Also used and empty items made of metal.	Does not accept any coffee capsules, coffee discs, electronics (e.g., coffee makers), organics (e.g., coffee grounds, tea bags), biodegradable, heavily soiled, contaminated, or hazardous materials.
Coffee Bags - Zero Waste™ Box	Any brand and size of empty coffee bags.	Flexible plastic packaging made of polyolefins, polyesters, nylon, and aluminum foil.	Does not accept any other types of coffee packaging or waste (e.g., coffee grounds, filters, capsules, or discs), biodegradable, beguither sided explanation and package metricials.
Soft Coffee Packaging - Zero Waste ™ Box Coffee Capsules - Zero Waste Box™ Hot Beverage Capsules - Zero Waste Box™ Hot Drink Capsules - Zero Waste Box™ Beverage Capsules - Zero Waste Box™	Any brand or size coffee capsule, K-Cup®, pack, pod, or disc. The capsules do not need to be emptied or cleaned.	Beverage Capsules made of rigid thermoplastics polyolefins, and metal; flexible thermoplastics polyolefins, multilayers and coffee ground.	heavily soiled, contaminated, or hazardous materials.  Does not accept any other types of beverage waste, loose coffee, coffee grinds, tea bags, electronics, coffee accessories, biodegradable, heavily soiled, contaminated, or hazardous materials.

Zero Waste Box™ (product name may vary by market)	Waste Stream Practical Description	Waste Stream Technical Description	Restrictions
Contact Lenses and Packaging - Zero Waste Box™	Any brand of contact lenses, contact lens packaging, plastic film, pods, and cardboard packaging.	Contact lens packaging made of thermoplastic polyolefins, aluminum foil, polyesters, contact lenses made of silicone.	Does not accept contact lens solution bottles, biodegradable, contaminated, or hazardous materials.
Corks - Zero Waste Box™	Any synthetic beverage corks.	Corks made of synthetic thermoplastic polyolefins.	Does not accept natural cork (bark), bottles, bottle caps, screw tops, foil, glass, aluminum champagne twists, contaminated or hazardous materials.
Diaper and Wipe Packaging - Zero Waste Box™ Synthetic Disinfectant Wipes - Zero Waste Box™	Any brand and size of empty diaper packaging and wipes packaging, including plastic diaper packaging, wipes plastic packaging, and individual wipes packaging.	Empty thermoplastic packaging made of polyolefins, polyvinyl, polyesters, polyamides, and aluminum foil.	Does not accept diapers, wipes, menstrual product packaging, adult incontinence packaging, biodegradable, contaminated, or hazardous materials.
Dining Disposables and Party Supplies - Zero Waste Box™	Any party and decoration item or packaging, including: single-use cups, plates, straws, or utensils (e.g., plastic, Styrofoam), storage containers, wrapping paper, ribbons, bows, tissue paper, napkins, garlands, noise makers, party favors, punch bowls, balloons, and confetti packaging.	Used and emptyitems made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyesters, polyvinyl, polyacrylics, polyamides, Polycarbonates, elastomers. Also used and empty items made of metal or paper.	Does not accept electronics, organic waste, glassware, flatware, wood, bamboo, biodegradable, heavily soiled, contaminated, or hazardous materials.
Disposable Garments - Zero Waste Box™	Any brand and size of non-woven disposable garments, including: Non-woven disposable garments, non-woven disposable masks, Tyvek disposable garments.	Non-Woven garments made of polypropylene (PP), polyethylene (PE). Zippers or fasteners made of Nylon, PP, PE, and metal.	Does not accept other types of protective gear (e.g., reusable masks, eyewear, hard hats, respirators, etc.), fabrics, rubber-based garments, biodegradable plastics, medical waste, heavily soiled or contaminated (hazardous) material including, materials contaminated with blood or bodily fluids, materials that originate from health care activities, such as, activities related to medical care, physicians' offices, dental, blood banks, veterinary, research laboratories, etc.
Disposable Gioves - Zero Waste Box™	Any brand disposable vinyl, nitrile, and latex gloves only.	Disposable gloves made of non-woven thermoplastic polyolefins (PP, PE), nitrile, latex, vinyl.	Does not accept leather, fiberglass fibers, biodegradable fibers, other types of protective gear, such as, hair nets, earplugs, and lab coats or garments. Does not accept biodegradable PLA gloves, cloth/fabric gloves, and coated or dipped gloves. Does not accept medical waste, heavily soiled or contaminated (hazardous) material including, materials contaminated with blood or bodily fluids, materials that originate from health care activities such as, activities related to medical care, physicians' offices, dental, blood banks, veterinary, research laboratories, etc.
Disposable Masks - Zero Waste Box™ Disposable Protective Masks - Zero Waste Box™ Masks - Zero Waste Box™	Any brand non-woven disposable plastic-based masks, including 3-ply surgical, dust masks, KN95, N95 masks, and poly masks.	Disposable masks made of non-woven polypropylene (PP, PE), thermoplastic polyurethane (TPU), nitrile rubber, latex rubber, and metals.	Does not accept other types of protective gear, such as, gloves, hair rels, lab coats, garments, paper or cloth masks. Does not accept medical waste, heavily soiled or contaminated (hazardous) material; including, materials contaminated with blood or bodily fluids, materials that originate from health care activities, such as, activities related to medical care, physicians, dental, blood banks, veterinary, research laboratories, etc.
Drink Pouches - Zero Waste Box™ Fuel For Fire Packaging Gush Recycling Program Haven's Kitchen Packaging Recycling Solution White Leaf Packaging Recycling Solutions	Any brand aluminized, multilayer drink pouches.	Pouches made of multi-layer thermoplastic polyolefins (PE, PP), polyesters (PET), Aluminum foil, copolymers (EVA, EVOH), or Nylon.	Does not accept heavily soiled, contaminated, or biodegradable materials.
E-Waste - Zero Waste Box™	Any household or office e-waste. This includes home phones, cell phones, computer cables and accessories, VCR/DVD players, hand-held computers, digital music players, pagers, radios, cameras, video recorders, printers and scanners, digital cameras, copiers, typewriters, fax machines, stereos, tuners, speakers, food processor, toaster, coffeemakers.	Used small household appliances made of thermoplastic polymers classified in the group of polyolefins, polystyrenes, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, polyacetals and metals.	Do not send plastic contaminated with persistent organics pollutants, contaminated plastics, loose alkaline batteries or rechargeable batteries, compostable plastics, paper, glass, aerosols, lamps, bulbs.
Ear Plugs - Zero Waste Box™	Any brand and size ear plugs.	Ear plugs made of foamed thermoplastic polyurethanes, synthetic rubber, polyvinyl, and silicone.	Does not accept hair nets, gloves, lab coats, garments, heavily soiled, or contaminated materials.
Empty Blister Packs - Zero Waste Box™ Blister Packs	Any brand empty blister packaging, blister packs, over-the-counter blister packaging	Empty blister packaging made of rigid thermoplastic polyolefins (PE, PP), polyesters (PETG, PET), polyvinyl chloride (PVC), Aluminum foil layers. Does not accept any residual medicine, prescriptions, biodegradable, or contaminated (hazardous) materials.	Does not accept any residual medicine, prescriptions, biodegradable, or contaminated (hazardous) materials.
Eyewear - Zero Waste Box™ Glasses - Zero Waste Box™	Any brand and size of glasses, goggles, sunglasses, or other eye wear. This includes broken spectacles, sunglasses, glasses, ski goggles, safety glasses and swim goggles.	Used eyewear made of thermoplastic polymers classified in the group of: cellulosic acetate, polyolefins, polyacrylics, polyamides, Polycarbonates, elastomers, polyesters, polyacetals and metals.	Do not send in eyeglass chains, cases, wipes, contacts, contact solution, or eye wear cleaning products.
Fabrics and Clothing - Zero Waste Box™ Textiles & clothing - Zero Waste Box™	All brands frabric, clothing or textile.	Clothing Textiles, and Fabrics made from synthetic and natural fibers that may have zippers, buttons and magnets.	Does not accept liners, shoes, purses, bags, hats, accessories (e.g., belts, jewelry, etc.), coated fibers, leather, fur and textiles may not contain filling (e.g., pillows, coats, blankets).
Filters - Zero Waste Box™	Any brand and size of water filters, filtered water pitchers, bottles, faucet filtration systems, and dispensers.	Water filters made of PP, Activated Carbon	Do not send in any other types of filters, cardboard packaging, drains, pipes, or PVC pipes, hazardous waste (sharp, flammable, reactive, corrosive, ignitable toxic, infectious or pathogenic) which presents a danger to the environment or to people, batteries, pressurised canisters, broken glass and medical waste.
Flip Flops - Zero Waste Box™	Any broad and sing of file flavor	Used flip flops made of thermoplastic polymers classified in the group of: polyolefins, EVA, polyamides, elastomers, polyesters	Do not send in other types of footwear like sneakers, ballet flats, heels, dress shoes, in-line skates or ski boots, and other clothing
Thongs and Flip Flops - Zero Waste Box	Any brand and size of flip flops.	group of: polyoletins, EVA, polyamides, elastomers, polyesters fibers and metals.	items related to feet, such as shoelaces and socks. Leather, natural fibers not accepted.
Garage Separation - Zero Waste Box™	Non-recyclable and non-organic waste that is generated in your garage and outdoor areas. This includes baby gear, filters, garden products, home improvement, storage containers, paper packaging, pet products (non-food)	Used and emptyllems made of thermoplastic polymers classified in the group of polytefines, polystyrenes, polymyl, polyacyflics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty item made of paper, soda lime glass.	Do not send wood, compostable plastic, contaminated material, hazardous material, batteries, tools, lamps, bulb, electronic waste.
Garden Products - Zero Waste Box™	Any materials, supply, or items used to maintain, grow, or decorate a garden or yard. This includes lawn ornaments, planter pots, empty garden product packaging, hoses, hose nozzles, lawn decorations, solar belis, sprinklers, plastic planters and pots and garden product packaging like empty soil bags, stone bags, mulch bags, seed bags, or sand bags.	not transfer Polycorhonates electomers polyesters cellulosic	Do not send wood, compostable plastic, contaminated material, hazardous material, batteries, tools, lamps, bulb, electronic waste. Do not send in soil, brush, debris, or plants. terracotta and ceramic pots.
Glue Sticks and Bottles - Zero Waste Box™	Any brand and size of (empty) craft glue sticks and bottles.	Empty used glue sticks and bottles made of thermoplastic polyolefins, Polyethylene terephthalate.	Do not send in industrial strength adhesives or other types of craft waste like paper, scissors, tape, or rulers. Do not send full products.
Hair Nets and Beard Nets - Zero Waste Box™	Any brand and size of used hair and beard nets.	Hair nets and beard net made of Polypropylene, Polyethylene, Synthetic Rubber.	Do not send in gloves, lab coats, or garments. Do not send contaminated or hazardous material.
Hotel Amenity Bottles - Zero Waste Box™ Hospitality Products and Hotel Cosmetics - Zero Waste™ Box	All brands and sizes of hotel amenity shampoo, conditioner, body wash, lotion, mouthwash, and aftershave bottles.	Polyethylene terephthalate or polystyrene.	Do not send in full products, bars of soap, razors, plastic packaging, toothbrushes, tissues, wood, compostable plastics or pressurized aerosols.  Does not accept other types of protective gear, such as, gloves,
Industrial Safety Helmets Hard Hats - Zero Waste Box	Any used Industrial Safety Helmets, Safety Bump Caps	Used industrial safety helmets made of thermoplastic polymers categorized in the groups of polyolefins (HDPE, PP), polycarbonates (PC), polystyrenes (PS, EPS, ABS), polyesters; silicone.	hair nets, lab coats, garments, safety goggles, or masks. Does not accept medical waste, heavily soiled, contaminated, or hazardous materials (sharp, flammable, reactive, corrosive, ignitable, toxic, infectious or pathogenic).
Ink and Toner Cartridges - Zero Waste Box™	Any brand and size of used ink and toner cartridge from personal or commercial printers.	Used and empty Ink and toner cartridges made of thermoplastic PS, ABS, PC, Nylon, POM, Metals. PP, PE.	Do not send in printers, printer parts, or printer accessories. Do not send hazardous materials.
Kitchen Separation Kitchen Waste - Zero Waste Box™	Any non-recyclable and non-organic waste that is generated in the kitchen. This includes Items such as plastic packaging, paper packaging, candy and snack wrappers, party supplies and dining disposables, cleaning accessories, coffee and tea accessories, water filters, and fabrics and clothing.	Used and empty items made of thermoplastic polymers classified in the group of polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty item made of paper, soda lime glass, synthetic or natural textile fibers.	Do not send in any kind of bulbs, batteries, electronic waste, hazardous material, prescription drug packaging or medicine, organics, broken glass, soiled diaper. Do not send in wood, compostable plastics. Textiles may not contain filling (pillows, coats, blankets), liners, shoes, purses, bags, hats, accessories (eg. belts, jeweiry, etc). Coated fibers, leather, fur are not accepted.
Laminated Paper Packaging - Zero Waste Box™	Any cellulose coated paper packaging, plastic coated paper packaging, Silicone Coated Paper Packaging, Wax Coated Paper Packaging, and Tetrapaks.	Packaging made of mostly paper and cardboard content with thin layer coatings made of polyolefin (PP, PE), silicone, wax or foil.	Does not accept label backing, packaging with coatings >50% of its cellulose content, organic, biodegradable, heavily contaminated, or hazardous materials.
Latex Gloves - Zero Waste Box™	Any brand disposable latex gloves only.	Disposable gloves made of non-woven thermoplastic latex.	Does not accept leather, fiberglass fibers, biodegradable fibers, other types of protective gear, such as, hair nets, earplugs, and lab coats or garments. Does not accept biodegradable PLA gloves, cloth/fabric gloves, and coated or dipped gloves. Does not accept medical waste, heavily solled or contaminated (hazardous) material including, materials contaminated with blood or bodily fluids, materials that originate from health care activities, such as, activities related to medical care, physicians' offices, dental, blood banks, veterinary, research laboratories, etc.

Zero Waste Box™ (product name may vary by market)	Waste Stream Practical Description	Waste Stream Technical Description	Restrictions
Media Storage - Zero Waste Box™	Any object or device capable of storing data (e.g., audio, video) in analog or digital format. This includes records, 8-track tapes, cassette tapes, CDs, DVDs, Blu Ray discs, Floppy disks, Memory sticks, External hard drives.	Used and empty items made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyvinyl, polyacrylics, polyamides, polyacarborates, elastomers, polyesters, cellulosic acetate, polyacetal, metals.	Do not send in electronic waste, or any other packaging.
Name Tags and Lanyards - Zero Waste Box™ Name Tags & Cords - Zero Waste Box™	Name tags, plastic sleeves, metal or plastic fasteners, cloth or plastic lanyards.	Used Tags made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyacrylics, polyamides,	Do not send in any credit cards, items with personal information unless it has been shredded or removed.
Nitrile Gloves - Zero Waste Box™	Any brand disposable nitrile glowes only.	elastomers, polyesters, metals.  Disposable gloves made of non-woven thermoplastic nitrile.	Does not accept leather, fiberglass fibers, biodegradable fibers, other types of protective gear, such as, hair nets, earplugs, and lab coats or garments. Does not accept biodegradable PLA gloves, clothfabric gloves, and coated or dipped gloves. Does not accept medical waste, heavily soiled or contaminated of (hazardous) material; including, materials contaminated with blood or bodily fluids, materials that originate from health care activities, such as, activities related to medical care, physicians' offices, dental, blood banks, veterinary, research laboratories, etc.
Office Separation - Zero Waste Box™	Used Offices Items which include art supplies, books, magazines, paper, eyewear, tape dispensers, scissors, staplers, school supplies, flexible and rigid plastic packaging, textiles, electronic items such as laptops, printers.	Used and emptyltems made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyyintyl, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty item made of paper, sodal imme glass, textile, metal or wood.	Do not send batteries, pressurised canisters, broken glass, organics, contaminated or hazardous waste.
Office Supplies	Used office supplies consisting of tape dispensers, staplers, paperclips, writing instruments, fasteners, binder clips, correction supplies, paper cutters, card filers, binders, desk organizers, label backing.	Used and emptyltems made of thermoplastic polymers classified in the group of polydelfins, polystyrenes, polyacrylics, polyamides, polycarbonates, elastomers, polyesters, cellulosic acetate, polyacetal, metals. Also used and empty Item made of metal.	Do not send electronic waste, paper-based products, organics, contaminated or hazardous waste.
Oral Care and Packaging  Oral Care Waste and Packaging - Zero Waste Box™	Any brand of used and empty oral care waste. This includes toothpaste tubes and caps, toothbrushes, toothbrush and toothpaste tube outer packaging, and floss containers.	Oral care empty products and packaging made of thermoplastic polymers classified in the group of: polyotefins, polystyrene plastics, elastomers, polyamides, terephthalate polyesters, polyacylics and polymethacrylates, polyacetals (POM) and metal; flexible thermoplastics polyolefins, polyesters, multilayers, metal.	Do not send in electronic toothbrushes, lithium-ion batteries, alkaline batteries, wood, biodegradable, or hazardous materials.
Pens, Pencils and Markers - Zero Waste Box™	Any brand of used pens, pen caps, mechanical pencils, highlighters, markers, marker caps, permanent markers, and permanent marker caps.	Used and empty writing instruments made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyamides, polycarbonates, elastomers, polyesters, polyacetal, metals.	Do not send in any type of paint brush, paint, paint tubes, crayons, charcoal pencils. Wood not accepted.
Personal Care Accessories - Zero Waste Box™	Any used and empty personal care accessory, including blow-dryer attachments (combs and diffusers), detangler bottles, gel packaging, hair dye packaging, non-pressurized hair spray bottles, pomade lins, shampoo and conditioner bottles, wax jars, plastic and metal bobby pins, plastic and metal clips, plastic brushes and combs, plastic picks.	Used and empty/tems made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyamides, polycarbonates, elastomers, polyesters, metals.	Do not send in electronic items (e.g., blow dryers and straighteners), bio-medical or bio-hazardous waste, nail polish bottles, perfume bottles, lotion, soap, ointments aerosols, biodegradable, heavily contaminated, or hazardous materials.
Pet Food Packaging - Zero Waste Box™  A Pup Above Packaging Recycling Solution Nulo Challenger Recycling Solution	Any brand and size of used, empty flexible pouch, bag, used for packaging pet food, treats, and vitamins.	Used and empty flexible packaging made of thermoplastic polymers classified in the group of: polyolefins, polyamides, polycarbonates, polyesters, metals.	Do not send in pet toys, dishes, or grooming items.
Pet Products (Non-Food) - Zero Waste Box™	Any brand used Pet accessories like non-plush (stuffed) toys, chews, tugs, clippers, leashes, muzzles, brushes, pet bowls, and any related pet care packaging for products used to groom, maintain, and wash pets.	Used and emptylems made of thermoplastic polymers classified in the group of: polyolefins, polystyrenes, polyymid, polyacrylics, polyamides, polyamorles, elastomers, polyesters, polyacetal, metals. Also used and empty item made of paper, soda lime glass, synthetic or natural extile fibers.	Do not send in wood, compostable plastics. Textiles may not contain filling (pillows, coats, blankets, bedding, stuffed toys), liners, shoes, purses, bags, hats, accessories (eg, belts, jewelry, etc.).
