

# SAFETY DATA SHEET

### 1. Identification

| Product identifier<br>Other means of identification<br>Recommended use<br>Recommended restrictions<br>Manufacturer / Importer / Suppli | MI-GLOW <sup>®</sup> 800L<br>Not available.<br>Non-destructive testing.<br>None known. |
|--|--|
|  |  |
| Company name   | Circle Systems, Inc.   |
| Address  | 1210 Osborne Road  |
|  | Saint Marys, GA 31558  |
| Telephone  | 912-729-2735   |
| E-mail   | customerservice@circlesafe.com   |
| Emergency phone number   | Chem-Tel 800-255-3924 (US and Canada); + 1-813-248-0585 (International)                |

# 2. Hazard(s) identification

| Health hazards                               | Aspiration hazard   | Category 1  |
|--|---|---|
| Environmental hazards                        | Not classified.   |   |
| OSHA defined hazards                         | Not classified.   |   |
| Label elements                               |   |   |
| Signal word                                  | Danger  |   |
| Hazard statement                             | May be fatal if swallowed and enters airways.   |   |
| Precautionary statement                      |   |   |
| Prevention                                   | Keep away from heat/sparks/open flames/hot s<br>well-ventilated area. Avoid release to the enviro   | surfaces No smoking. Use only outdoors or in a onment.  |
| Response                                     | If swallowed: Immediately call a poison center/doctor. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell. Do NOT induce vomiting. |   |
| Storage                                      | Store locked up.  |   |
| Disposal                                     | Dispose of contents/container in accordance w   | vith local/regional/national/international regulations. |
| Hazard(s) not otherwise<br>classified (HNOC) | Not classified.   |   |

# 3. Composition/information on ingredients

| lixtures                                       |            |     |
|--|------------|-----|
| Chemical name                                  | CAS number | %   |
| Distillates (petroleum),<br>Hydrotreated Light | 64742-47-8 | >95 |
|  |            |     |

# 4. First-aid measures Inhalation If symptoms develop move victim to fresh air. Call a POISON CENTER or doctor/physician if you feel unwell. Skin contact Wash off with soap and water. Get medical attention if irritation develops and persists.

| Eye contact  | Rinse with water. Get medical attention if irritation develops and persists.  |
|--|---|
| Ingestion  | Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.   |
| Most important<br>symptoms/effects, acute and<br>delayed<br>Indication of immediate<br>medical attention and special<br>treatment needed | Diarrhea. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of eyes and mucous membranes. Irritation of nose and throat. Aspiration may cause pulmonary edema and pneumonitis. Skin irritation.<br>Provide general supportive measures and treat symptomatically. Keep victim under observation.<br>Symptoms may be delayed. |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |

| 5. Fire-fighting measures  | 5   |  |
|--|---|--|
| Suitable extinguishing media                                     | Water fog. Dry chemical powder. Dry chemicals. Carbon dioxide (CO2).                          |  |
| Unsuitable extinguishing media                                   | Do not use water jet as an extinguisher, as this will spread the fire.                        |  |
| Specific hazards arising from the chemical                       | During fire, gases hazardous to health may be formed.   |  |
| Special protective equipment<br>and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |  |
| Fire-fighting<br>equipment/instructions                          | Not applicable.   |  |
| Specific methods   | Not applicable.   |  |
| General fire hazards   | NFPA Class IIIB combustible liquid.   |  |

| 6. Accidental release me  | asures  |  |
|---|---|--|
| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep upwind. Keep out of low areas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Local authorities should be advised if significant spillages cannot be contained.  |  |
| Methods and materials for containment and cleaning up                     | Refer to attached safety data sheets and/or instructions for use. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. The product is immiscible with water and will spread on the water surface. Stop leak if you can do so without risk. Move the container to a safe and open area if the leak is irreparable. Use water spray to reduce vapors or divert vapor cloud drift. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water. |  |
|   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.   |  |
| Environmental precautions   | Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Inform appropriate managerial or supervisory personnel of all environmental releases.   |  |
| 7. Handling and storage   |   |  |
| Precautions for safe handling   | Do not smoke while using. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Ground and bond containers when transferring material. Use only in well-ventilated areas. Do not re-use empty containers. Avoid breathing mist or vapor. Avoid prolonged or repeated contact with skin.  |  |
| Conditions for safe storage, including any incompatibilities              | Ambient temperature and pressure.   |  |
|   | Do not handle or store near an open flame, heat or other sources of ignition. Store away from incompatible materials (see Section 10 of the SDS).   |  |

# 8. Exposure controls/personal protection

#### Occupational exposure limits

#### **US NIOSH: Pocket Guide to Chemical Hazards**

| US NIUSH: POCKET Guide to  | Chemical Hazarus  |                        |
|--|---|------------------------|
| Components   | Туре  | Value                  |
| Distillates (petroleum),<br>Hydrotreated Light (CAS<br>64742-47-8) | TWA   | 100 mg/m3              |
| Biological limit values  | No biological exposure limits noted   | for the ingredient(s). |
| Appropriate engineering controls                                   | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |                        |
| Individual protection measure<br>Eye/face protection               | es, such as personal protective eque<br>Chemical respirator with organic va   |                        |
| Skin protection  |   |                        |
| Hand protection  | Wear appropriate chemical resistar  | nt gloves.             |
| Other  | Wear suitable protective clothing.  |                        |
| Respiratory protection<br>Thermal hazards                          | Respiratory protection is not normally required except in emergencies or when conditions cause excessive airborne levels of mist or vapors – then use a chemical respirator with organic vapor cartridge and full facepiece.<br>Wear appropriate thermal protective clothing, when necessary.   |                        |
| General hygiene<br>considerations                                  | When using, do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.   |                        |

# 9. Physical and chemical properties

| err nyelear and enerniear p                |                           |
|--|---------------------------|
| Appearance                                 |                           |
| Physical state                             | Liquid.                   |
| Form                                       | Liquid.                   |
| Color                                      | Dark Green.               |
| Odor                                       | Slight petroleum odor.    |

| Viscosity         | 4.1cSt @ 20°C, 68°F |
|-------------------|---------------------|
| Other information |                     |
| VOC (Weight %)    | 815-821 g/l         |

| 10. Stability and reactivity                                 |   |
|--|---|
| Reactivity   | The product is stable and non-reactive under normal conditions of use, storage and transport.   |
| Chemical stability   | Material is stable under normal conditions.   |
| Possibility of hazardous<br>reactions<br>Conditions to avoid | No dangerous reaction known under conditions of normal use.<br>Avoid temperatures exceeding the flash point. Contact with incompatible materials. |
| Incompatible materials                                       | Strong oxidizing agents.  |
| Hazardous decomposition<br>products                          | No hazardous decomposition products are known. Hazardous gases and vapors produced in fire are oxides of carbon.                                  |
|  |   |

# 11. Toxicological information

Γ

| Information on likely routes of  | exposure   |  |
|--|--|--|
| Ingestion  | Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. Expected to be a low ingestion hazard.  |  |
| Inhalation   | May cause drowsiness and dizziness. Headache. Nausea, vomiting. May cause irritation to the respiratory system. Prolonged inhalation may be harmful.   |  |
| Skin contact   | May cause skin irritation.   |  |
| Eye contact  | Causes eye irritation.   |  |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics | Diarrhea. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of nose and throat. Aspiration may cause pulmonary edema and pneumonitis. Irritation of eyes and mucous membranes. Skin irritation. |  |
|  |  |  |

#### Information on toxicological effects

| Acute toxicity                                   | May be fatal if swallowed and enters airways. Narcotic effects. |  |  |
|--|---|--|--|
| Components                                       | Species   | Test Results   |  |
| Distillates (petroleum), Hydrotre                | ated Light (CAS 64742-47-8)                                     |  |  |
| Acute  |   |  |  |
| Dermal   |   |  |  |
| LD50   | Rabbit  | > 2000 mg/kg, bw   |  |
| Inhalation                                       |   |  |  |
| LC50   | Rat   | > 5.28 mg/l, 4 hours   |  |
| Oral   |   |  |  |

#### **US state regulations**

#### US Massachusetts RTK - Substance List

Distillates (petroleum), Hydrotreated Light (CAS 64742-47-8)

#### US New Jersey Worker and Community Right-to-Know Act

Distillates (petroleum), Hydrotreated Light (CAS 64742-47-8)

#### US Pennsylvania RTK - Hazardous Substances

Distillates (petroleum), Hydrotreated Light (CAS 64742-47-8)

#### US Rhode Island RTK

Not regulated.

#### **US California Proposition 65**

WARNING: This product does contain chemicals known to the State of California to cause cancer.

#### US - California Proposition 65 - Carcinogens & Reproductive Toxicity (CRT): Listed substance

Formaldeyhde (CAS 50-00-0)

#### International Inventories

| Country(s) or region        | Inventory name  | On inventory (yes/no)* |
|-----------------------------|---|------------------------|
| Australia                   | Australian Inventory of Chemical Substances (AICS)                        | Yes                    |
| Canada                      | Domestic Substances List (DSL)  | Yes                    |
| Canada                      | Non-Domestic Substances List (NDSL)                                       | No                     |
| China                       | Inventory of Existing Chemical Substances in China (IECSC)                | Yes                    |
| Europe                      | European Inventory of Existing Commercial Chemical<br>Substances (EINECS) | Yes                    |
| Europe                      | European List of Notified Chemical Substances (ELINCS)                    | No                     |
| Japan                       | Inventory of Existing and New Chemical Substances (ENCS)                  | Yes                    |
| Korea                       | Existing Chemicals List (ECL)   | Yes                    |
| New Zealand                 | New Zealand Inventory   | Yes                    |
| Philippines                 | Philippine Inventory of Chemicals and Chemical Substances (PICCS)         | Yes                    |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory                             | Yes                    |

\*A "Yes" indicates this product complies with the inventory requirements administered by the governing country(s).

A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
