

ROSACEA - INFLAMMATION OF THE ESOPHAGUS

The esophagus is the source of your rosacea. The following outline discusses protocols for the 3 main causes, choose the one most applicable to you.

CANDIDA

It is estimated that more than 80% of those eating a Western diet have an overgrowth of candida. Candida is part of your probiotic population, but it can become more dominant when progesterone medication (often in birth control pills) is taken, when sugar, dairy and fried foods are ingested frequently and when antibiotics are taken. This condition might be accompanied by acne and often shows up with redness on the cheeks and forehead as well.

MUST-HAVES

RESCUE MD

A patented tool for the skin to calm redness and detox and boost your skin's immune strength.

SKIN PERFECTION

This Elixir uses groundbreaking, clinically proven technology to reduce candida.

ALSO BENEFICIAL

RECOVERY

A powerful prebiotic that restores the microbiome and esophagus/gut health, which clears nose redness associated with this source of damage.

SKIN CLARIFIER

This mucus cleanse will expose candida for removal and improve digestion overall. Rosacea sufferers may require one or up to three cleanses.

For lasting professional results, it is highly recommended to receive monthly Osmosis facial treatments to properly support your at-home skincare regimen. You can find an Osmosis Certified Spa near you by visiting our spa locator at <http://osmosisbeauty.com/apps/store-locator>
