

✧ Alignment of Whole Phonics™ LEVEL ONE decodable books ✧ and UFLI Foundations Lessons

This alignment tool is meant for UFLI Foundations instructors who would like to expand their decodable text library by incorporating Whole Phonics™ decodable books. The chart below displays the Whole Phonics book title as well as the sounds and high frequency words covered in each book. To effectively use this tool, UFLI instructors can introduce each book at the corresponding UFLI lesson listed below. If any sounds or high-frequency words have not yet been introduced in the UFLI program, that specific sound or high frequency word is identified in the column to the far right. Through this instructional alignment, the Whole Phonics books can be read in order, starting at Lesson 38a, and will be 100% decodable. For teachers who start utilizing this alignment beyond Lesson 38a, remember to teach or review prior irregular words and/or suffixes in the far-right column as these concepts are cumulative.
