ABOUT US

Your clear & coloured glass solutions!

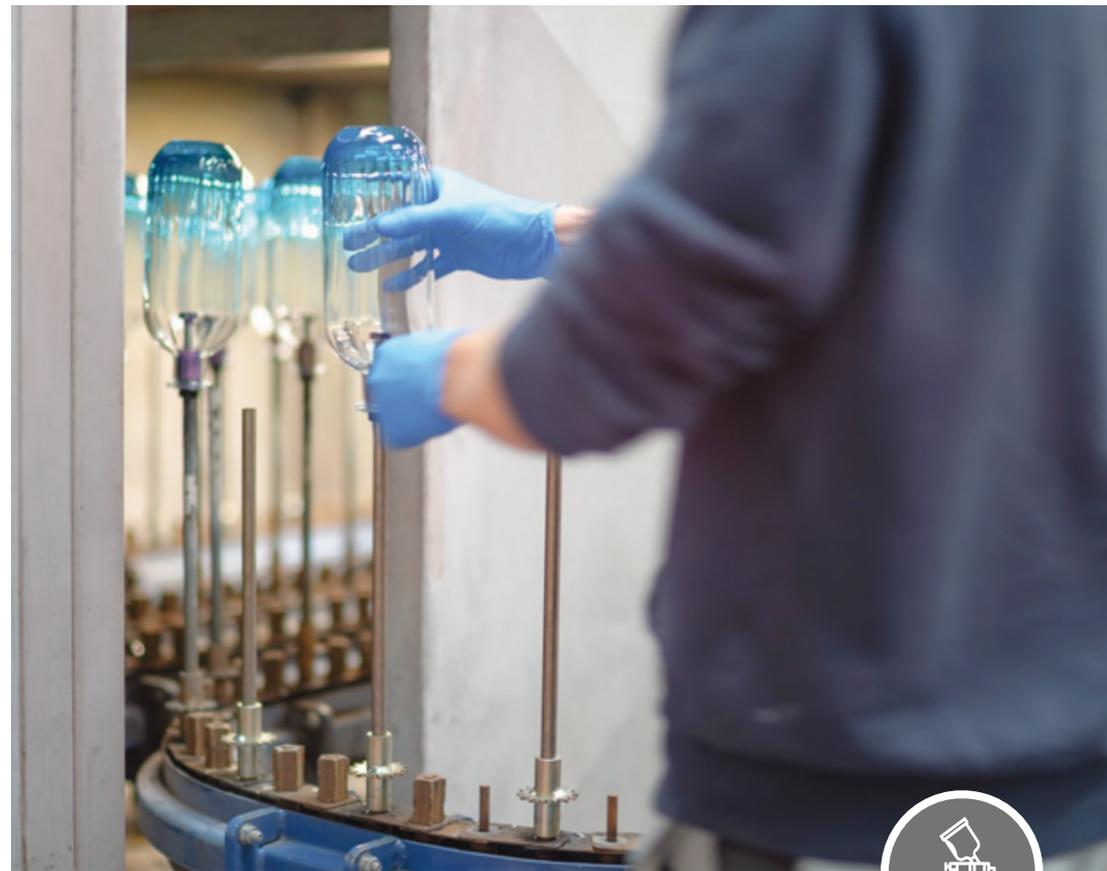

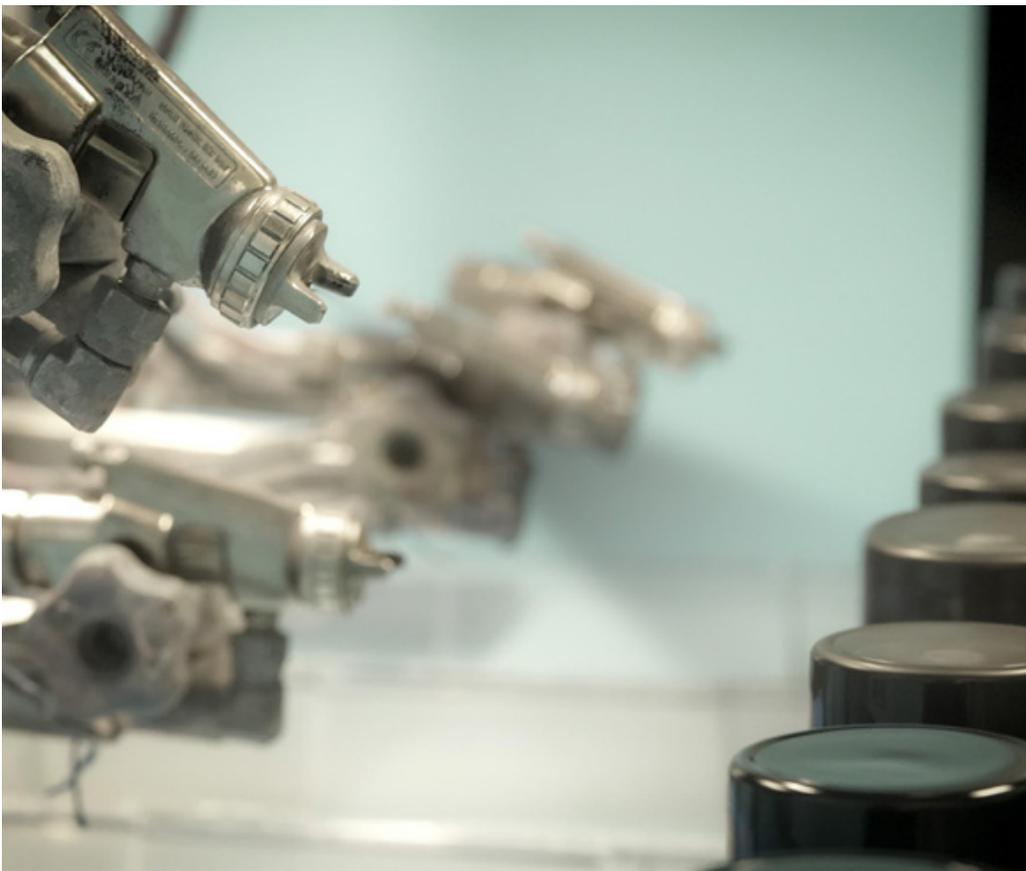

Based in the heart of Kent, Colorlites specialise in supplying plain and decorated glass jars and bottles to a multitude of industries. With almost 40 years of industry knowledge, this enables us to understand and deliver our customer's needs.

Offering a full and bespoke glass decoration service, our ability to meet client demands is what has made us the choice for many world leading brands. We supply to the Aromatherapy, Cosmetic, Food, Home Fragrance & Beverage markets, catering for everyone from the small hobbyist to large International companies.

Our competitively priced range of glass bottles, jars, candle vessels, diffuser bottles and associated components, is one of the largest in the market place. Delivering to our customers in the UK, throughout Europe and beyond.

We are passionate about protecting the environment and feel by using glass, which is infinitely recyclable, we can work with our clients towards protecting our future together.

SPRAY COATINGS

Spray coating is the process of full or partial painting of glass vessels with various techniques.

We have the ability to decorate in a wide range of colours whether a standard stock colour or a custom shade of your choice. All available in a variety of finishes; simulated etch, gloss, matt, metallics or pearlescent in solid opaque or transparent, the options are endless!

COLOUR MATCHING

Our paint matching service offers precision and versatility, whether you provide a specific Pantone code, a swatch, or even a physical sample, our advanced color-matching technology guarantees an exact match.

With meticulous attention to detail, we ensure that the paint seamlessly complements your glass packaging, enhancing its visual appeal and brand identity.

SCREEN PRINTING

Screen printing is the process of pressing ink through a stenciled mesh, which enables a perfect application of a printed design to a clients chosen vessel.

Silk screen printing provides the ability to apply more than one colour to the finished vessel and is often applied over a spray coating to elevate a products design.

Each screen can be used to reproduce the same design thousands or even tens of thousands of times, so it is a brilliant technique for producing large volumes on glass.

HOT FOILING

Hot foil stamping is the process of transferring decorative foil to a glass surface under the influence of a certain pressure and temperature. The essence of the method is that a multilayer foil is applied to the glass surface. As a result of the process, an almost three-dimensional image is obtained, giving a pleasant tactile sensation.

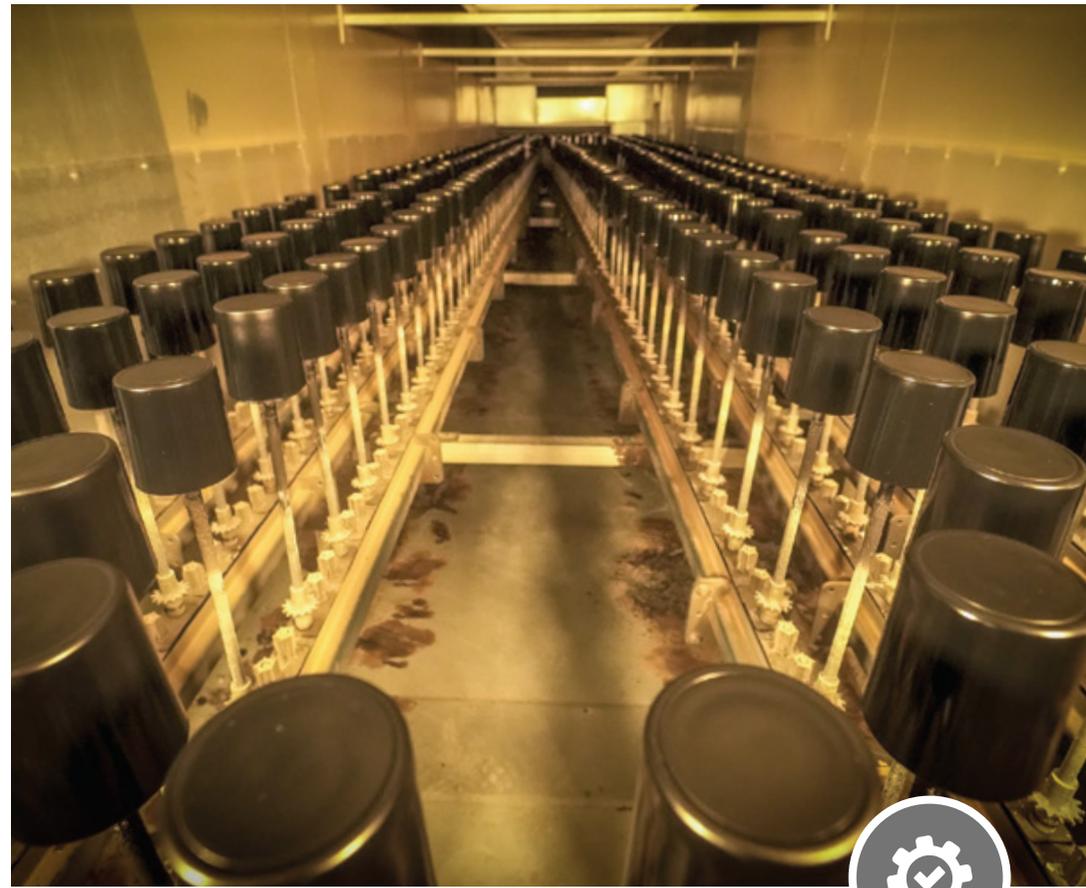

Often clients choose to combine with spray coating and or silk screen printing to deliver a very individual decoration for brand identity.

ONLINE PLATFORM

Designed with convenience in mind, our user-friendly platform ensures seamless and hassle-free transactions. With just a few clicks, customers can effortlessly browse through our extensive product catalogue, explore vibrant colour options, and make their selections with confidence.

INDUSTRIES WE SUPPLY

Our glass packaging solutions cover diverse industries including Aromatherapy, Cosmetics, Food, Home Fragrance, and Beverages. From preserving delicate aromas to enhancing product presentation, our containers offer both functionality and style tailored to each market's unique needs.

CUSTOMER CARE

At Colorlites , we understand that customer service goes beyond just meeting expectations; it's about creating memorable experiences and we place great value in long term relationships build from trust.

Our team is passionate about delivering an exceptional service that leaves a lasting impression. We take the time to understand your unique needs, guiding you through the decoration process, offering personalised solutions and go above and beyond to ensure your complete satisfaction with your customised bespoke product.

Edmunds Cocktails was born with a clear purpose, to help everyone serve perfect cocktails!

Sourcing the perfect bottles for our ready-to-drink cocktails to be served from was as important to us as selecting and blending the flavours.

We have been working with Colorlites since our conception in 2018. Their continued support and assistance, alongside the growth of our business has been second to none! Working with us to ensure the supply chain is consistent and the cocktails continue to pour, a dedicated account manager at the end of the phone, and their shared values when it comes to sustainability is why we consider them part of our team!
