

PRONG COLLAR SIZING GUIDE

1

Based on your dog's weight, choose the correct wire gauge

2

Measure your dog's neck and add 2" (ex. if your dog's neck measures 10", your prong collar will need to be at least 12")

Please note: Collars should sit higher up on the neck, as shown in the diagram

3

If you need to further customize the length of your Prong Collar, we suggest adding or removing links

CHOOSING THE CORRECT WIRE GAUGE BASED ON WEIGHT

<p>Recommended up to 40lbs <u>Max. of 66lbs</u></p>	<p>2.25mm</p>	<p>Up to 88lbs</p>	<p>3.25mm</p>
<p>Up to 77lbs</p>	<p>3mm</p>	<p>Up to 154lbs</p>	<p>4mm</p>
