DASHBOARD UPDATE TIPS

- If you haven't done so already, LOGIN in to your "new" Dashboard. (Dashboard manual also in Resource Library)
- Going forward you will have TWO ways to earn referral/marketing fees. By sharing your link as you have been doing AND/OR through Video Commerce!!
- All of the information you had before the update is still on your Dashboard, it is just located in a different place. Your LINKS did NOT change.
- This is new technology being tested for livestream shows. The dashboard update features a preview of this technology and the ability to share past shows with customers for a referral fee (marketing fee). This will be an opportunity to perfect the technology's order and reporting features before beta testing the 1 to many V-Commerce (Video Commerce) experience.
