

Product Manual for Oasis

Specification

Model	: Oasis
Voltage	: 5V
Power	: 1W
Size	: 125*125*129mm
Product Weight	: 550g
Material	: Plastic
Coverage	: 150m³
Bottle	: 30ml

Function Description

Power On:

Connect to a USB power supply and a short "beep" will indicate the device is powered on, with the control button backlight illuminating.

Power Off:

Deactivate the device by pressing the control button until a 'beep' sound is heard.

Manual Scent Intensity Adjustment:

The default intensity is set to the 5th Grade (Customized). Pressing the control button once will switch to the 1st grade and each subsequent press will cycle through the Grades from 1 to 5 in order.

Bluetooth Connection:

The control button backlight illuminates when the device successfully connects to Bluetooth.

Commands received from the app are accompanied by a "beep" sound. The control button backlight turns off when Bluetooth is disconnected.

Customizable Scheduling:

Configure up to 5 unique schedules, providing an enhanced level of convenience to your aromatherapy routine.

Password Reset:

Hold the control button for approximately 5 seconds until you hear two "beep" sounds to reset the password to 8888.

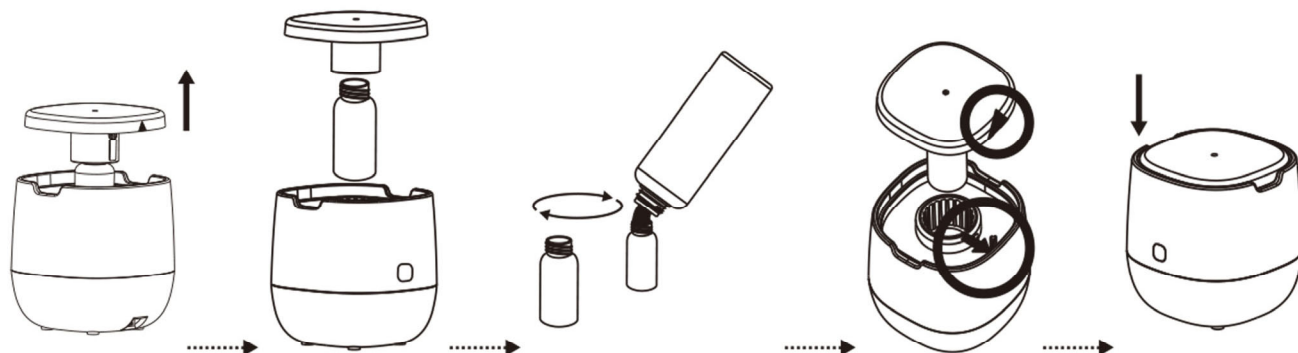

You can change the password using the shcent Hub App.

Intensity and Usage:

Different grades and oils may have varying levels of consumption.

Grade	Working Time (s)	Pause Time (s)	Oil Consumption (ml/h)
G1	6	24	0.15
G2	12	18	0.25
G3	18	12	0.4
G4	24	6	0.55
Customized	1-29s	1-29s	

Product Usage Instructions

1. Remove the atomized head from the nebulizer.
2. Unscrew the essential oil bottle.
3. Refill the atomized head using the original essential oil bottle.
4. Ensure the refill direction is correctly aligned.
5. Reattach the atomized head to the nebulizer, ensuring it is pressed down fully.

Product Manual for Oasis

Aspects to note:

- * Please ensure the device remains upright after installation. Tilting or laying it flat could result in oil overflow. Contamination of the circuit board may affect the device's efficiency.
- * Avoid placing the device in areas with high temperatures or humidity to prevent potential damage.
- * For optimal performance and to prevent leaks or damage, please ensure the device remains in an upright position during operation.
- * To prevent damage to the device, use only pure essential oils (oil-based) and avoid water-soluble oils (water-based).
- * Extended operation of the aroma nebulizer without essential oil in the bottle may lead to device damage or potential leakage.
- * **This model does not have a built-in Li-Battery and requires a power cable for operation.**

Basic Troubleshooting

When the device fails to diffuse or experiences weak diffusion:

- * The atomizing core might be obstructed; please clean any impurities inside using alcohol or replace it with a new one. (For cleaning and maintenance, please refer to shcent Video Guide - Maintenance)
- * Check if the nozzle tube or gasket is loose and secure it properly if needed.

If there's oil leakage from the device:

- * Ensure the bottle is securely fastened by checking and tightening it if it's loose.
- * Ensure the device is kept in an upright position if it has been tilted or laid flat to avoid further spills.

If the device is defective and unable to operate:

- * If the device is found to be defective, please send it to shcent for troubleshooting and repair.
- * Repairs are free of charge if within the warranty period. However, repair costs will apply if the warranty period has expired.
