

# OUTSIDE GLUE

High elasticity universal adhesive glue for external use

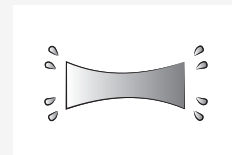

Single-component sealant with butyl rubber base

Cartridges do not require special disposal  
(low toluene content)

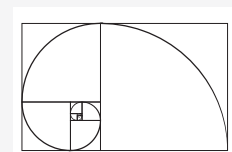

## ELASTIC

The butyl composition offers high joint elasticity over time, even in the case of small deformations or movements

## UNIVERSAL

Guarantees sealing and attachment to the most common materials, including damp or wet supports

## CODES AND DIMENSIONS

code	ex code	content [ml]	pcs/box
1 OUTGLUE310	D69542	310	12
2 OUTGLUE600	D69544	600	12

## TECHNICAL SPECIFICATIONS

property	value
Colour	grey
Density	1.3 g/m <sup>3</sup>
Yield with 8 mm diameter strip (cartridge 310 ml)	approx. 6 m
Time for creating a film	20 - 30 minutes
Hardening time at 25 °C	24 / 48 h
Temperature resistance once hardened	-25 / +80 °C
Application temperature	0 / +40 °C
Water tightness after hardening	conforming
Storage temperature	+5 / +25 °C
Solvents	YES
VOC emissions	15 %

NOTE: Store the product in a dry, covered location for no more than 12 months
