# Reflective Foil Tape for use in Roof, Walls & Floors

## KEY FEATURES

---

### DESCRIPTION :

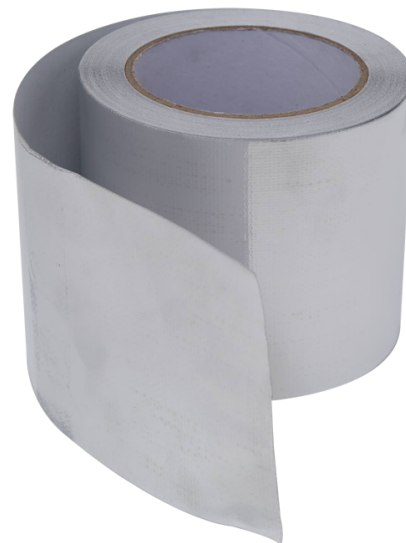

SuperFOIL Superior Tape is a two part peel back self-adhesive reflective foil tape with glass fibre reinforcement suitable for use with all SuperFOIL products.

### USES :

SuperFOIL Superior tape is used for sealing joints, cuts, tears & protrusions when installing SuperFOIL insulation to help provide enhanced air tightness and vapour resistance.

### Preparation :

Ensure all surfaces where SuperFOIL Superior tape is to be installed are clean, dry & sound. Measure and cut the required amount of tape to be used then peel off the backing and press tape firmly against areas to be taped. SuperFOIL Superior tape designed to seal your insulation in conjunction with mechanical fixings.

## TECHNICAL

---
