

# 1000 Gauge Polythene

## Description

Protec's BBA Approved 1000 Gauge heavy duty polythene sheeting is a recycled and fully recyclable heavy duty polyethylene damp proof membrane (DPM) used to prevent moisture transmission. Protec's heavy duty 1000 Gauge polythene sheeting acts either as an oversite membrane, between a blinded hard core bed and the base concrete, or as a sandwich membrane in base concrete floor or between the base concrete and screed

## Technical Specifications

Material	Polythene
Roll size	4mx25m
Thickness	1000 gauge 250 mic
Weight per roll	22.5kg
Markings	None
Colour	Black
Disposal	<a href="http://www.bremap.co.uk/">http://www.bremap.co.uk/</a>

## Features

- BBA Approved Damp Proof Membrane
- Flexible material, ideal for draping.
- 100% recyclable and manufactured from recycled materials
- Waterproof & Rot Proof Membrane.

## Guidelines for Use

- Perfect for protecting roofing, protection against weather, mixing cement or as a temporary protection material during a move or construction project.
