EACH PRINT IS UNIQUE.

Risography is known to be one of the most eco friendly and energy efficient printing technique. The ink is rice-bran-oil-based and could rub off a little. Slight offset and variation in colour application make each print one of a kind.

Die Risographie gilt als eines der umweltfreundlichsten und energiesparendsten Druckverfahren. Die Farbe basiert auf Reiskleieöl und könnte bei Berührung etwas abreiben. Leichter Versatz und variierender Farbauftrag machen jeden Druck zu einem Einzelstück.

La risographie est l'un des procédés d'imprimerie parmi les plus écologiques et économes en énergie. L'encre est à la base d'huile de son de riz et peut légèrement déteindre. Les légers décalages ou variations dans l'application des couleurs rendent chaque impression unique en son genre.

Donkey Creative Lab in collaboration with Herr & Frau Rio
