WHERE PEOPLE AND TECHNOLOGY CONVERGE ►

A photograph of two women in an office setting. The woman on the left has long, wavy brown hair and is wearing a dark blue blazer over a white top. She is smiling and looking at a tablet held by the woman on the right. The woman on the right has curly brown hair and is wearing a light blue button-down shirt. She is also smiling and looking at the tablet. They are both wearing jewelry: the woman on the left has a necklace, and the woman on the right has a watch and bracelets. The background shows a wooden wall and a camera on a shelf. The image is framed by a blue circular border on the left and a blue triangular border on the right.

At TechExpress,
we've learnt that the
products we sell will
never be as powerful as
the relationships we build.

The globalization of business and the emergence of the digital economy are shaping the future of Information Technology. Old paradigms are being disrupted and new ones created.

tech express

As this trend shapes and re-defines the competitive landscape, only suppliers with the most up-to-date technologies, integrated with the latest innovations and backed and supported by the best people, will be equipped to partner you

on your digital transformation journey.

Founded in 2007, our core purpose has been to build long-term relationships while delivering products and solutions that harness the power of IT to ensure our customers' success.

Because of this, we have grown to become a trusted conduit between suppliers, vendors, customers and channels alike.

Our product portfolio includes the likes of Dell, 3M,

Amulet Hotkey, Cables2Go, Ergotron and Mellanox, with a focus on vertical customer solutions.

And while we will always value lasting relationships above one-time purchases, we also recognise that online business is playing

an increasingly important role in the transaction process. With this in mind, our state-of-the-art user-friendly website and email ordering process is supported and backed by an efficient call centre manned by hand-picked staff.

TechExpress carries a comprehensive range of top brand name accessories and upgrade components designed to

tech Express

ACCESSORIES

help you not only get the most out of your existing technology but to extend its lifespan to its maximum capacity.

ADAPTORS

From legacy technology to cutting edge connectivity, TechExpress stocks a wide range of PC adaptors.

BATTERIES

We hold high quality battery replacements for a wide range of branded laptops.

CABLES

A complete portfolio of cabling solutions including A/V and PC data connectivity designed for installation in data centres, networks and workspaces, connecting a broad range of devices.

EOL SPARES

We stock a wide range of vendor end-of-life spares that let you sweat your assets past defined warranty periods.

HARD DRIVES

We carry a wide range of top brand hard drives at affordable prices.

SSD:

We stock a range of solid state drives (SSD). Faster than traditional storage methods, SSD's use circuits as memory to store data quickly and persistently.

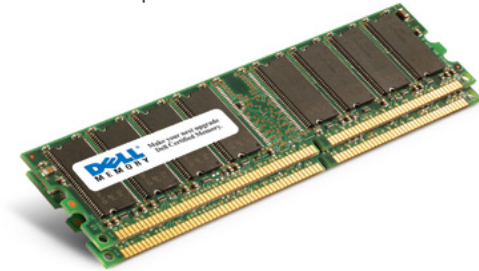

MEMORY

Memory upgrades for PC's, laptops and servers

Dell Branded Memory:

The only brand of memory selected, tested, validated and fully supported by Dell for use in Dell computers.

PRINTING CONSUMABLES

We carry all the printer supplies and consumables you need, including toner, laser and inkjet printer cartridges; and spares such as imaging drums and fuser assemblies.

We provide a range of security options, an often-overlooked aspect of asset and data protection. Whether it be for physical hacking prevention using

tech Express

SECURITY

privacy features, or actually locking down the data storage device with locks and protective cages, we have the perfect solution for you.

BACK-UP SOLUTIONS

Affordable cloud-based data back-up solutions for both businesses and individuals. Protect your valuable data and avoid critical loss or severe impact to your business.

ENCRYPTION

We offer a full range of data Encryption Solutions - including external hard drives and USB flash drives to add security to your endpoint devices.

PHYSICAL SECURITY

Physical security is an important aspect of protecting your valuable IT assets and data storage devices - we have a range of protective cages and other lock-down devices.

PRIVACY FILTERS

3M has designed advanced optical technology that delivers visual privacy and screen protection trusted the world over. It's your first line of defence against visual hackers, physical screen damage and screen glare.

They offer products that fit over 40,000 devices, so chances are they have got the right product to help protect your screen, and help keep the information displayed on it, private. Innovative technology from 3M prevents visual hackers from stealing sideways glances at your screen, while providing a crisp, clear view for intended users.

TechExpress offers a comprehensive range of solutions for the modern workplace. These include specialised boardroom solutions, ergonomic desk

tech Express

WORKSPACE

and monitor stands and everything in between. Future-proof your workspace with our cutting-edge solutions.

BOARDROOM SOLUTIONS

Our cutting edge solutions are customized to your exacting requirements. Ranging from small meeting spaces to large conference rooms, we have a boardroom solution to meet your needs without breaking your budget.

We are constantly incorporating new and innovative technology in order to make your meetings times more seamless and productive.

CONNECTIVITY

Connecting people (SD-LAN), connecting places (SD-WAN) - Aerohive Networks has a full-stack of software defined, cloud managed solutions required to build edge-to-cloud IOT-ready network access solutions.

Advanced analytics allow you to translate your wireless data into valuable information and insights to drive your business forward and future-proof your environment. We offer vertical access solutions covering Education, Enterprise, Retail and Hospitality.

Aerohive:

Adaptable Cloud-based networking with self-optimizing, self-healing, and self-organizing Switches and Access Points.

ERGONOMICS

Ergonomics is the science of designing the workplace, keeping in mind the capabilities and limitations of the worker. A systematic ergonomics improvement process removes risk factors that lead to musculoskeletal injuries and allows for improved human performance and productivity. Ergotron has translated this science into full range of workspace solutions to protect your valuable workers and at the same time enhance performance levels.

Ergotron:

Ergotron's product portfolio includes wall and desk vesa mounts, office and tech furniture, sit-stand desks and workstations, charging stations and mobile carts.

TechExpress offers a wide range of products and services designed to enable our vendors to offer complete end-user solutions. We offer end-of-life spares, logistics, batteries and accessories and so much more

tech Express

VENDOR

to enhance our vendor's reputation amongst their customers. We offer a full complementary range of upgrades and accessories in order to provide customers with a full-featured and productive ecosystem.

DELL

We offer a comprehensive range of accessories and upgrades specifically for Dell client and enterprise ecosystems, including end-of-sale spares allowing customers to prolong the life of their assets outside of the standard warranty periods.

Our aim is to complement the vendor's product offering and offer sound value and longevity to the customer's investments.

ERGOTRON

In addition to providing a comprehensive array of Ergotron office and education productivity solutions we also offer a specific focus on the healthcare industry, providing a comprehensive portfolio of medical wall mounts, carts, desk mounts and services.

Healthcare Solutions:

Ergotron healthcare products can help your clinic, physician office or hospital improve electronic medical records access and caregiving services. Universal carts for transporting, securing, protecting and charging all your mobile computing devices:

KINGSTON

Through our strategic sourcing and logistics relationship with Kingston we are able to source memory and SSD drives for our key Tier-one brands.

LENOVO

We carry a full range of Lenovo branded accessories and upgrades, including replacement batteries for laptops. Choose us for all of your client ecosystem requirements.

At TechExpress, we have partnered with some of the world's leading open networking and specialist enterprise solutions providers to ensure our offering is world-class, our service is

tech Express

ENTERPRISE

unparalleled and our relationships are built to last. Our approach is to provide extended technology solutions in order to ensure a complete customer data centre solution.

AEROHIVE

Cloud networking technologies that provide self-organizing and self-healing connectivity, reduced operating costs and complexity and greater data insights.

Supported by the industry's most flexible and adaptable architecture and licensing model, Aerohive's cloud-managed networks can be fully tailored to match your requirements today, and well into the future.

F5

F5's mission is based on the fact that to succeed, businesses need apps. Whether it's apps that connect businesses to businesses, businesses to customers, or simply help employees achieve maximum productivity, they ensure their apps are always available, always secure, anytime, anywhere.

Today, the world's largest enterprises, service providers, financial and educational institutions and government entities rely on F5 to keep them ahead of the game in regards to security, cloud and mobility trends.

AMULET

A proven innovator in design, manufacturing and system integration of high-availability solutions for remote physical or virtual workstations.

Amulet Hotkey creates centralized computing and remote desktop solutions that include physical and virtual workstations, high-performance computing systems as well as virtual and cloud desktops. Their solutions are optimized for mission and business-critical applications and they deliver reliable, secure and uncompromised performance backed by world-class support.

KEMP

High performance, award winning Cloud, Virtual and Hardware Application Delivery Controllers for highly available, scalable and secure application delivery environments.

KEMP's Application Delivery Fabric offers customers an innovative and flexible way of consuming, implementing and optimizing their application delivery infrastructure

ATOS BULL

Atos has designed the Bull range of HPC servers to meet the needs of applications and users.

These high-performance servers provide maximum flexibility in terms of interconnect, processor type, power and cooling, covering the widest spectrum of applications. Bull supercomputers offer infinitely adaptable response from departmental HPC clusters to world-class supercomputers.

MELLANOX

Mellanox Technologies is a leading supplier of end-to-end Ethernet and infiniband intelligent interconnect solutions and services for servers, storage and hyper-converged infrastructure. Their solutions increase data centre efficiency by providing high throughput and low latency to deliver ultra-fast data to applications and unlock system performance potential.
