Scope of delivery

please check for completeness

- A 2 bent stainless steel tubes with support tube
- B 2 straight stainless steel tubes as stand feet
- C 10 screws + 10 nuts (for 13 mm wrench)
- D 13er wrenches

LAZY stainless steel stand

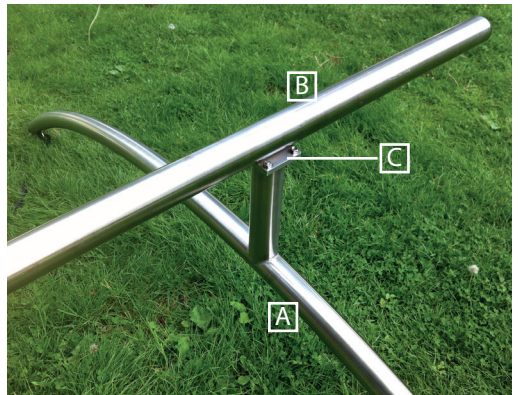

First of all for orientation: This is what the finished LAZY looks like. By the way: The LAZY stainless steel stand can be assembled by one person alone. You should only be able to handle the 13 mm wrench.

1st step

Take a half arch (A) and place it upright so that it stands with both ends on the ground like a „bridge“. The easiest way to do this is to take the half arch between your legs to have your hands free for the next steps.

Now take the straight footrest tube (B) and place it on the half arch so that the 4 holes of the two welded-on perforated plates are exactly on top of each other. Now screw the foot part (B) to the support tubes of the half arch (A) with 4 screws + 4 nuts (C).

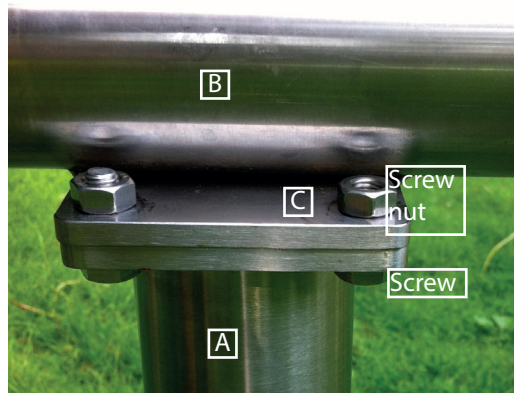

Step 2

Absolutely observe: The screws must be inserted into the plates from below and the nuts must be screwed on between the plates and the foot part. This is the only way around. Please tighten the screws and nuts with the two enclosed 13 mm spanners.

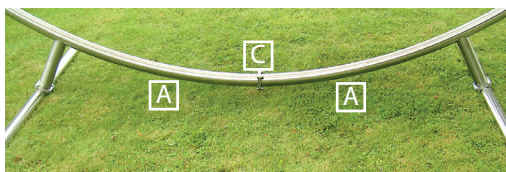

Step 3

Now repeat steps 1 and 2 with the other half arch (A) and the foot part (B) and the screws / nuts (C).

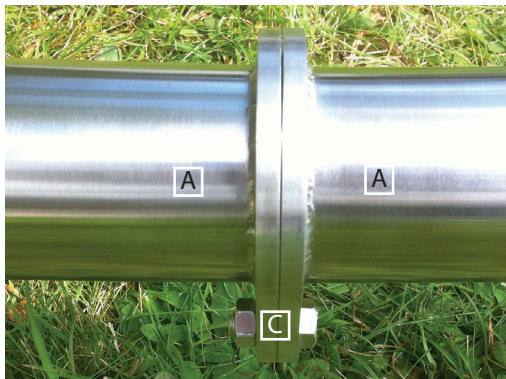

Step 4

Now the two half arches (**A**) are joined together. To do this, place the two bent stainless steel tubes on the screwed-on foot sections (**B**).

Step 5

Now push the two half arches (**A**) together so that the two plates with the 2 drill holes fit exactly together. Insert the 2 screws (**C**) through the holes of the two plates and screw on the nuts (**C**). Now tighten both half arches very tightly with the 13 mm spanner (**D**).

Stainless steel care

Recommended:

Stainless steel is the modern material of our time, hard-wearing, robust and easy to clean. Clean stainless steel pipes only with a non-abrasive cleaning agent. Often a strong rubbing with a soft, clean cloth is sufficient. Water with dishwashing detergent removes almost any dirt. For intensive care we recommend „Stainless Steel Polish“ from Starbrite.

Unsuitable:

Do not use abrasive substances as they scratch the surface. Chrome, silver, brass care products are not suitable, as they dissolve oxides. Furniture polishes and other „shiners“ are also unsuitable as they form a wax film. Metal sponges or iron wool (often black metal) are not suitable, as they scratch the surface and leave rusting iron particles.

Use and Safety Instructions

Read the manual before use and keep it for further questions. For safety reasons, set up the stand with 2 adults. The stand must be set up at ground level, on a solid floor that does not give way. Regularly check the technical parts. Weight load LAZY 250kg TÜV-tested.

The hammock stand is not a rocking stand. Strong rocking is transferred to the stand attachments and can cause damage. These are excluded from the warranty because of incorrect use. Children should only use the hammock in the presence of adults and should not be left unattended.

We are happy to help.

For questions, advice, product information, we are available as manufacturer. If you need our advice on hanging, have any questions regarding the use of the product, accessories or other items of the Crazy Chair Collection, please contact us by phone or e-mail.

Crazy Chair is an internationally registered trademark. Crazy Chair develops, designs and produces in Germany. More about Crazy Chair can be found on the Internet at www.crazychair.de

LAZY hammock combinations

CrazyChair offers two perfect hammocks for this stainless steel stand.

COMBO Hammock:

The COMBO offers plenty of lying space and excellent comfort for relaxation. Instead of just lying down, you can also sit next to each other with 2 adults, like in a Hollywood swing. The back is pleasantly supported while sitting.

OYSTER Hammock:

The OYSTER luxury hammock for the demanding, with a unique pampering lying comfort. The OYSTER is wide, stable, double-layered and equipped with a luxuriously large pillow. Two adults have space on it.
