INTRODUCTION

Vivari is a sanitary ware company registered and operating in the Philippines. An expert in producing state of the art Italian technology and design sanitary product, exports premium and quality items in Europe and United States. This brand, synonymous with luxurious design, quality, and innovation are the result of creativity and passion of the Founders to understand the trend and the growing needs of clients in the sanitary ware industry.

The company understands that all projects are different and has its own unique set of specifications. Thus, a group of experts and designers together with the sales and support team was arranged to satisfy the evolving need of the clients in every sector of the market, whether a newly-built or refurbishment. It is combining and bringing in the excellence of the latest cutting edge technology and the traditional Italian craftsmanship, where the center for premium and authentic bathroom solutions is.

Vivari products have been meeting and often exceeding the requirement in all applications. Looking at the future with continually changing process and product innovations that involve the integration of different competencies, from theory to application, design to technicality, and the type of materials to logistics.

Vivari has been able to get the trust and respect of the industry. Understanding the need of the customers and providing the right solutions led the institution to obtain affirmative consents from the market that made them different from the competition.

Providing the comfort and indulgence to your personal spaces with a wide range of product line, and continuing to bring in more creations that promote affordable, convenient and luxurious living in today's generations and the future– an elegance that is built to last!

CARE AND MAINTENANCE

To keep your new Vivari product beautiful and fully functional, Please follow these simple care instruction.

Simple care instruction for electronic parts:

- Step 1: Rinse non-electronic components with clean water.
- Step 2: Dry the components with soft cotton cloth or soft sponge.

Simple care instruction for Ceramic items and parts:

- Step 1: Remove as much surface dirt and film on non-electronic components using clean water and soft cotton cloth.
- Step 2: Use any of the following to remove tough surface film and build-up:
 - Mild liquid detergent, Refrain from Using acid-based liquids such as Muriatic acids and Bleaches (e.g. Zonrox)
 - Liquid glass cleaners
 - Non- acidic and non- abrasive cleaner, liquid or fully dissolved powder cleaners mixed according to manufacturer's directions. Non- abrasive cloth and paper towels. Regular cleaning will reduce the need for heavy cleaning and polishing.

Simple care instruction for Chrome plated fittings:

- Step 1: Remove as much surface dirt on chrome plated items with non- abrasive or soft cotton cloth.
- Step 2a: When using Mild or Liquid Soap Mix water (warm) and mild or liquid soap (Joy, Surf or Axion dishwashing liquid) in a container. Dip the soft sponge or with non-abrasive or soft cotton cloth. Wring out some excess water, then rub onto the chrome plated item. When it has been cleaned properly. Rinse it under running water or rinse your sponge thoroughly. Wring out the excess water again and go over the chrome item again with a wet soft sponge to remove all cleaning solution that was left on the item.
- Step 2b: When using Multi- surface cleaner and Stain remover Use non-abrasive or soft cotton cloth and put enough amount of Multi- surface cleaner (CIF) and Stain remover (wipe- out) and leave the said cleaner for 1-3 minutes onto the chrome plated item. Wipe off the Multi- surface cleaner (CIF) and Stain remover (wipe- out) on the chrome plated item with clean non-abrasive or soft cotton cloth.
- Step 3: Dry and Buff With clean non-abrasive or soft cotton cloth dry and buff the Chrome plated item in circular motion. Buffing helps to remove any excess water, dirt and rust and it also helps the item become shiny.

Reminder

Chrome plated items tend to show water marks or spots, as much as possible donot let it air dry. Wipe off the water.

Warning do NOT use the following items:

1. Acid-based liquids and cleaners such as Muriatic acids and Bleaches (e.g Zonrox and Domex).
2. Abrasive cloth or sponge

Use of Sealant in installing and fixing Toilets

The use of Sealant in installing and fixing of Toilets is highly recommended.

Advantages of using sealant in Installing Toilets:

Keep your toilet secure on the floor, and avoid any chance of injury or toilet malfunctioning. Prevent side-to-side movement that can break the wax seal Prevent splashes or overflows from puddling under the toilet and rotting the floor around the base of Toilet

Easy to remove , repair or replace it to

VIVARI reserves the right to make changes or modifications of its products without further notice. The product description is for reference only. Technical installation guide is not included in this catalogue.
