

Colorescience® Launching in the UK

We're very pleased to announce the launch of Colorescience in the UK through our new partnership with Wigmore Medical. Colorescience is thrilled to continue to spread global awareness of sun protection and overall skin health through 100% mineral, chemical-free active ingredients. UK media and news outlets, as well as key social influencers are already raving about Colorescience in the UK and the importance of skin protection through reapplication of Colorescience's bestselling mineral powder, Sunforgettable Brush-on Sunscreen SPF 50 . Products will be available for purchase on www.colorescienceuk.com as well as select retail and physician partners.
