Returning forest air for healthier living

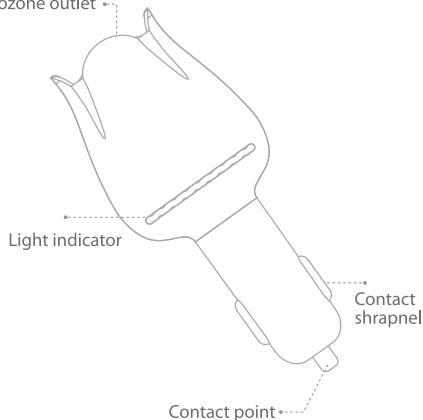

Car Air Purifier
CI-1100

User Guide

Technical specifications

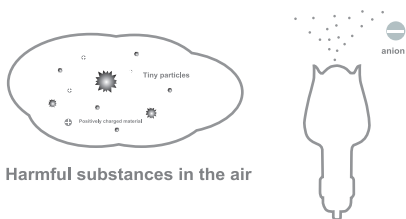

Name	Car Air Purifier	Type	CI-1100
Voltage	DC12V	Current	<60ma
Power	1W	Weight	50g
Size	109*46*46mm	NAIs Emission	> 1*10 ⁶ /cm ³

Negative air ion & ozone outlet

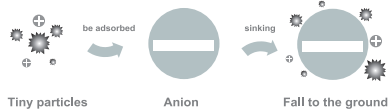

Negative Air Ions

Negative air ions (NAIs) are molecules charged with electricity in the air. In nature, NAIs are formed in rainforests, waterfalls, during heavy storms, anywhere where there is a lot of moisture in the air. Dust and pollutants are attracted to the surface of the negative air ions. The clustered air pollutant subside to the ground, cleaning your breath zone of harmful pollutant.

Harmful substances in the air

Features

This product is a kind of car air purifier to purify the air inside the car. This product is compact and convenient, directly into the cigarette lighter of the car to work, produce negative ions.

- Reduces virus infectivity
- Reduces PM2.5 and other pollutants
- Reduces the impact of secondhand smoke
- Releases a high concentration of beneficial negative ions

Suitable for all vehicles

Plug into the cigarette lighter socket to switch it on
