

## Gargoyles I (DCOI)

[www.multiversegamingterrain.com](http://www.multiversegamingterrain.com)

Read the instructions carefully before putting the kit together. The model can be glued with PVA glue. A file and a sharp hobby knife may be needed to remove the bits of the sprue from the parts.

Lay the top platform piece flat on the table.

Slide the central piece with beak into the slot and glue it.

Add the side pieces with eyes on both sides of the gargoyle.

**4**

Glue the collar onto the main body.

**5**

Glue the two small wing pieces into the holes on both sides of the collar. Your gargoyle is finished!
