

Mausoleum (DC25)

www.multiversegamingterrain.com

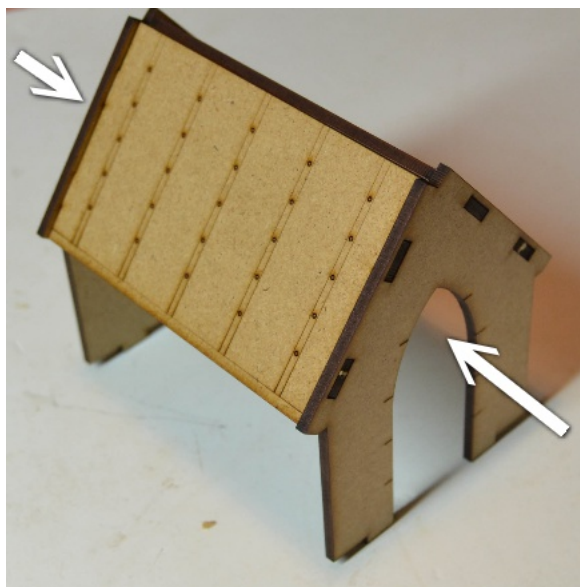

Read the instructions carefully before putting the kit together. The model can be glued with PVA glue. A file and a sharp hobby knife may be needed to remove the bits of the sprue from the parts

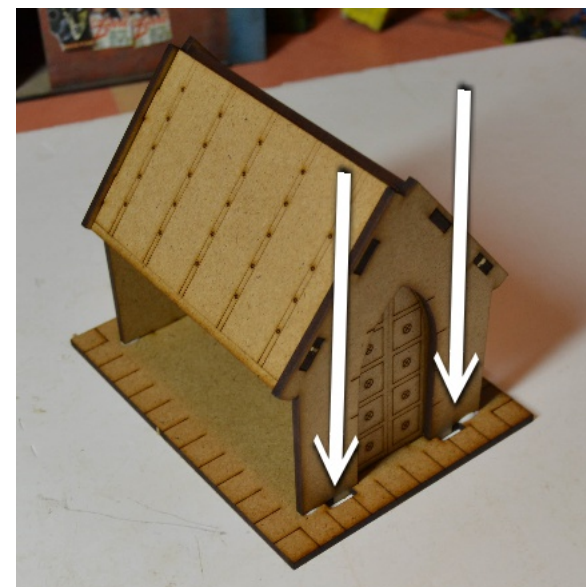

Start with gluing the door into the holes that are closest to the middle of the base.

Glue the front and back wall to the mausoleum's roof as shown:

Add the whole assembly to the base, using the second row of holes.

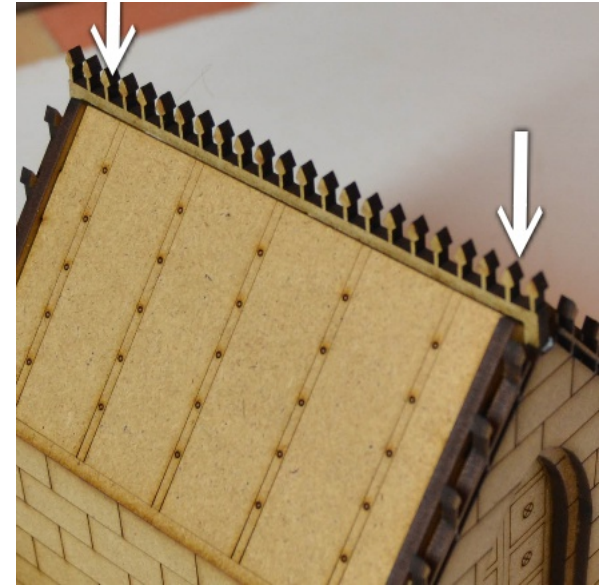

4

Add the two side walls:

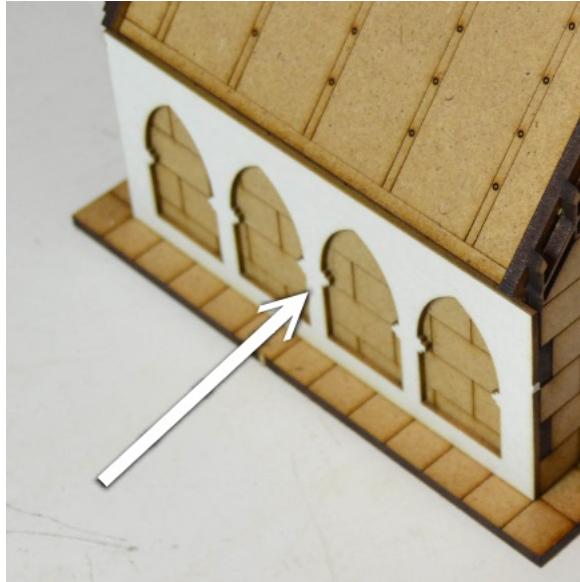

5

Add the railing on top of the mausoleum.

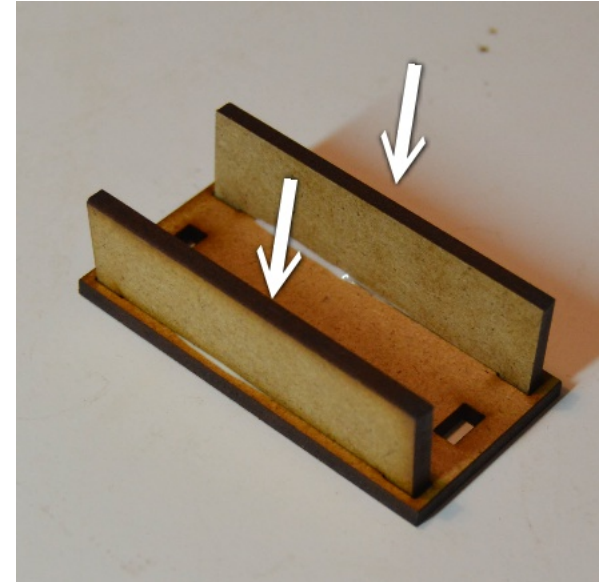

6

Optional: add the matte board arches on the side of the mausoleum.

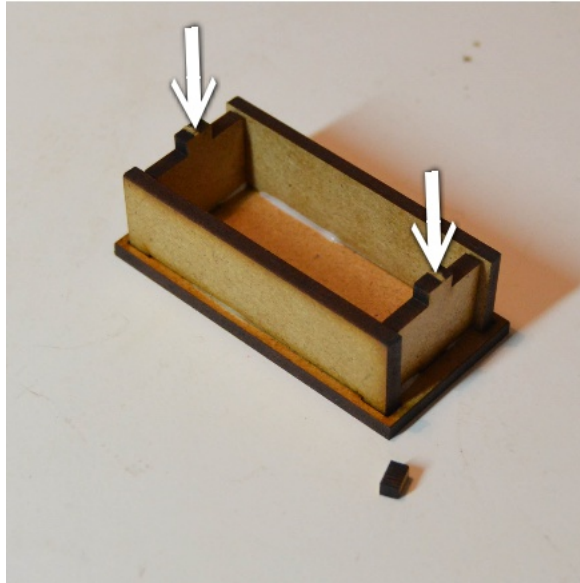

7

Add the two side walls to each tomb.

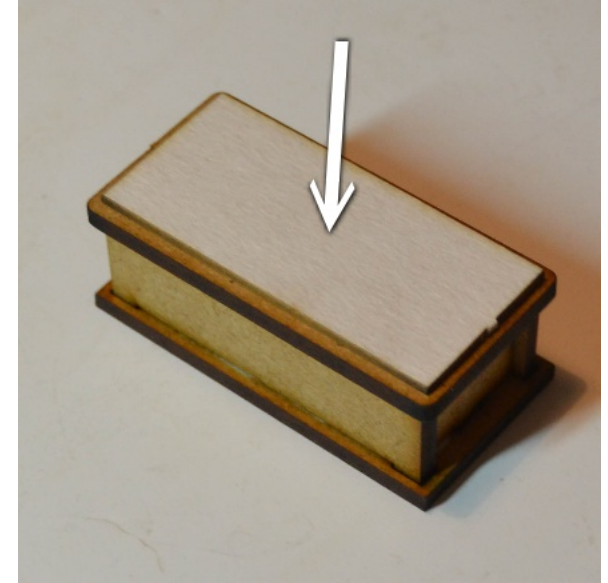

8

Add the two shorter walls to the piece.

9

Glue the matte board tomb plate on top of the tomb.

10

Add the matte board arch pieces to all sides of the tomb.
