

Spaceship Wreckage (GWT002)

www.multiverregamingterrain.com

Read the instructions carefully before putting the kit together. The model can be glued with PVA glue. A file and a sharp hobby knife may be needed to remove the bits of the sprue from the parts

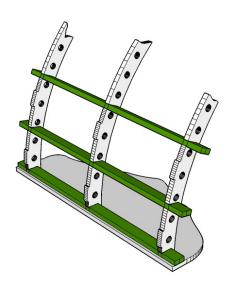

Start by gluing the supports into the holes in the base as shown.

Add the three horizontal crossbars to the assembly as shown.

3

Carefuly bend the greyboard hull piece and glue it to the supports.
