

Place the 4 legs down on the floor and place the rod through the holes.

Lock the rod in place with the 4 R-Clips provided.  
Place the R-Clips in the holes of the rod.

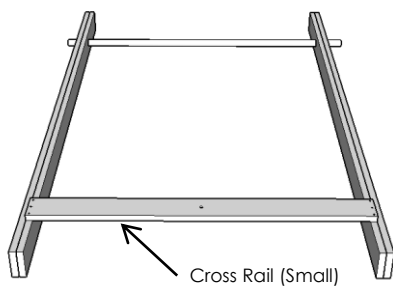

Take the larger cross rail and align it as shown in the picture. You can choose your height you wish to place the cross rail. We would recommend 150mm from the bottom.

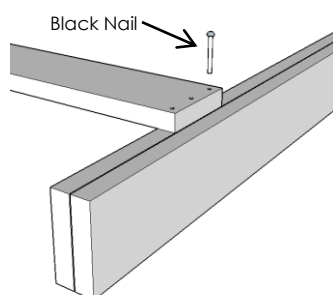

Ensure the same distance on each side.

Take half the black nails provided and hammer these into the outer legs.

Flip the clothes rack over and place take the smaller cross rail and align it as shown in the picture.

Take half the black nails provided and hammer these into the inside legs.

Once everything is connected, take the string and feed it through the holes in the centre of the cross rail. Tie loose end of the string to the desired length.

You are now finished. Enjoy your clothes rack.
