Left & right earshot

Micro-USB charging cord

Self-charging case

GET STARTED

1. Take earSHOTS out of self-charging case
2. SIMULTANOUSLY press and hold the button on the back of BOTH earSHOTS for 3s. When the lights turn on you can release the buttons
3. Wait for one of the earSHOTS to flash red/blue (this can take up to 30sec)
4. Open Settings on your device and select Bluetooth
5. Wait for earSHOTS to appear in list of devices
6. Select earSHOTS

Note: See Trouble shooting section if two earSHOTS appear in the list of devices.

Turning on earSHOTS

1. SIMULTANEOUSLY press and hold the button on the back of BOTH earSHOTS for 3s. When the lights turn on you can release buttons

Note: When the L earSHOT is flashing red/blue it means earSHOTS are ready to connect to a device.

Turning off earSHOTS

1. SIMULTANEOUSLY press and hold the button on the back of BOTH earSHOTS for 5s
2. earSHOTS lights will pulse red, then turn off

Tip: Placing earSHOTS in the self-charging case will also turn them off

Fitting earSHOTS

1. Hold the earSHOTS by the arm, close to the earbud
2. Seperate the earbud from the hook
3. Tuck the earbud into the ear over the ear canal
4. Lift the hook over the top of your ear and slide down behind
5. Line up the end of the earbud with the protruding line on the hook part of the earSHOT

Note: Tuck the hook tight in behind your ear, where it meets the side of your head

Earbud Positioning

1. First tuck the red earbud in over the ear canal
2. The push the earbud into the ear

Connect to a smartphone

1. Turn on earSHOTS and wait for one of the earSHOTS to flash red/blue
2. Open Settings on your device and select Bluetooth
3. Wait for earSHOTS to appear in list of devices
4. Select earSHOTS

NOTE: See Trouble shooting section if sound is only coming through one earshot

Power & charging

Charging earSHOTS in case

Tip: Flashing red light means earSHOTS self-charging case is charging. The light turns solid red when the case is fully charged.

Solo/Dual mode

Activating solo mode

1. Start with earSHOTS turned off
2. In Settings on your device, disconnect or forget the earSHOTS connections that are currently stored
3. Select which earSHOT you want to use in Solo mode
4. Turn on the selected earSHOT by pressing and holding the button on the back for 3s
5. Wait for the earSHOT light to flash red/blue
6. Open Bluetooth Settings on your device and select the earSHOTS device

Re-activating dual mode

1. Start with earSHOTS turned off
2. Go to Settings on your device and disconnect/forget the earSHOTS connections you have stored
3. SIMULTANEOUSLY turn on earSHOTS per normal. Wait for the L earSHOT to flash blue/red
4. Open Settings on your device and select earSHOTS

Trouble shooting

Two earSHOTS displaying on Bluetooth

1. Clear the earSHOTS from your devices list by selecting "Forget Device" or 'Disconnect" on all the connections
2. On BOTH earSHOTS, simultanously press and hold the buttons on the back for 10s
3. At the end of the 10s do 3 short presses of both buttons simultanously

Google maps directions not playing

1. Open your Google Maps app from your device
2. Go to the menu and select Settings
3. Select Navigation
4. Ensure 'Enable voice over Bluetooth' is switched on

Restart earSHOTS

1. Turn off your earSHOTS
2. Open your settings on your phone/device and clear/forget earSHOTS from your list of devices
3. Simultaneously press the buttons on both earSHOTS for 10 sec
4. After the 10 sec, simultaneously press the buttons on both earSHOTS three times
5. Turn on earSHOTS by simultaneously pressing the buttons on each earSHOTS for 3 sec
