

Tillman Fire-Resistant Cotton Face Mask

The airflow you need with a comfortable, cool feel for all day use at the shop.

Tillman's Fire-Resistant face mask delivers the next level of comfort, protection, and breathability. Constructed with lightweight, US Made, high-performance Westex® cotton fabric that allows air to pass through for easier breathing for all day wear. The FR cotton material offers a soft & smooth feel next to the face and is engineered to absorb moisture for all day comfort. Its double layer construction helps to shield you from harmful air borne particles.

So, show your shop, employees, and customers you care about them with the Tillman Fire Resistant face mask.
