

Digital Infinity™ Series

Auto-Darkening Welding Helmets

Welding Safety and Health 

Quick Specs

Viewing Area

13.4 sq. in. (86.45 sq. cm)

Operating Modes and Shades

Weld (8–13), Cut (5–8), Grind (3), X-Mode™ (8–13)

Light State 3.0

Sensors 4

Optical Clarity

1/1/1/2

TIG Rating 5 amps and below

Switching Speed 1/25,000 second

Weight 21.4 oz. (606 g)

Certifications ANSI Z87.1+, CSA

Optional helmet lighting accessory kit includes two lights (one for each side) and all required mounting hardware.

Largest viewing area. 13.4-square-inch viewing area with wide screen format provides unsurpassed view and eliminates tunnel vision.

ClearLight™ 2.0 Lens Technology provides advanced high-definition optics for the most realistic view that's clearer and brighter — before, during and after every weld.

InfoTrack™ 2.0 tracks and displays arc time and arc count.

AutoSense™ reduces issues related to setting helmet sensitivity by allowing the welder to push and hold the AutoSense button to automatically set the helmet sensitivity for their environment.

Four arc sensors and four modes: weld, cut, grind and X-Mode. X-Mode electromagnetically senses the weld to reduce sunlight interference and continuously detects the arc even if sensors are blocked.

Digital controls easily allow welder to make precise lens adjustments to shade, delay and sensitivity.

Memory function for easy switching between two preset customized memory settings.

Half-shade settings for precise lens adjustment.

NEW! Legacy headgear with comfort cushion has an ergonomic design that provides extensive adjustability, settings, and enhanced support.

Auto-darkening lens is warrantied for four years.
