Representative picture

- Most powerful cordless metal beveling tool for 45° chamfers up to 4 mm and radii of 2 and 3 mm
- Surfaces free from oxide and burrs as ideal preparation for the application of powder or paint coatings for maximum protection from corrosion
- One-touch controller: Patented, tool-free setting of the cutting depth in 0.1 steps; stop points for short setting times, and protection against unintentional adjustment of the cutting depth when working
- Slim cutter head for working on tubes, on drilled holes from Ø 13 mm, and on exterior contours
- Parallel stop for a uniform finish when processing straight edges
- Battery pack can be swiveled for better working in hard to reach places.
- Overload protection: protects the motor from overheating
- Electronic soft start for smooth start-up
- Restart protection: prevents unintentional start-up after battery replacement
- Detachable dust filter protects motor from coarse particles
- LiHD Battery Pack for ultimate power, extremely long run time and service life
- Ultra-M Technology: highest power, gentle charging, and 3 year warranty on the battery pack
