

## LIA FLOOR

M KAIA  
D PETER STRAKA

LIA's three-flamed elegance captivates when on, yet this floor light almost disappears into its surrounding when the lights are off. Process: The brass is cut, bent in its shape and polished. Then all the components are nickel plated or the brass is brushed and painted with a clear lacquer to maintain the natural effect of the brass. Lastly all parts are assembled to the LIA lighting object.
