PRIVATE LABEL  
CAPABILITIES

# STELLAR SNACKS EST. 2019

Since March 2019 we have been baking, roasting & mixing our snacks in-house daily, right here in Carson City, Nevada on the West Coast of the U.S.A.

From the farm to the customer, we strive to offer healthy snacks, innovation and transparency.

# FACILITY

Our 100,000 square foot facility is  
Peanut-free, SQF, Kosher, Certified Organic, Certified  
Women Owned & Non-GMO Project verified

## TEMPERATURE CONTROLLED WAREHOUSING

Due to drastic climate changes we offer temperature-controlled warehousing for both raw materials and finished products to maximize shelf life.

## GREASE TRAPS

Keeping our environment clean, our grease traps intercept most greases and solids before they enter wastewater disposal systems. We recycle what we can and dispose what we can't in the most environmentally friendly way possible.

## REFRIGERATED STORAGE

A 20,000 sq foot refrigerator plays an important role in food safety and shelf life. We have plenty of refrigeration for your most sensitive product needs.

04

## NITROGEN CONVERSION SYSTEMS

By replacing the breathable atmosphere in a package with a pure gas or a gas mixture, including nitrogen, the shelf life of products can be significantly extended, helping them look, smell, and taste good far longer than they would otherwise.

## WATER TREATMENT CAPABILITY

Our water treatment process incorporates general purpose water insuring sanitary conditions to process water treatment and purification for high quality food production and taste.

## KOSHER CERTIFIED

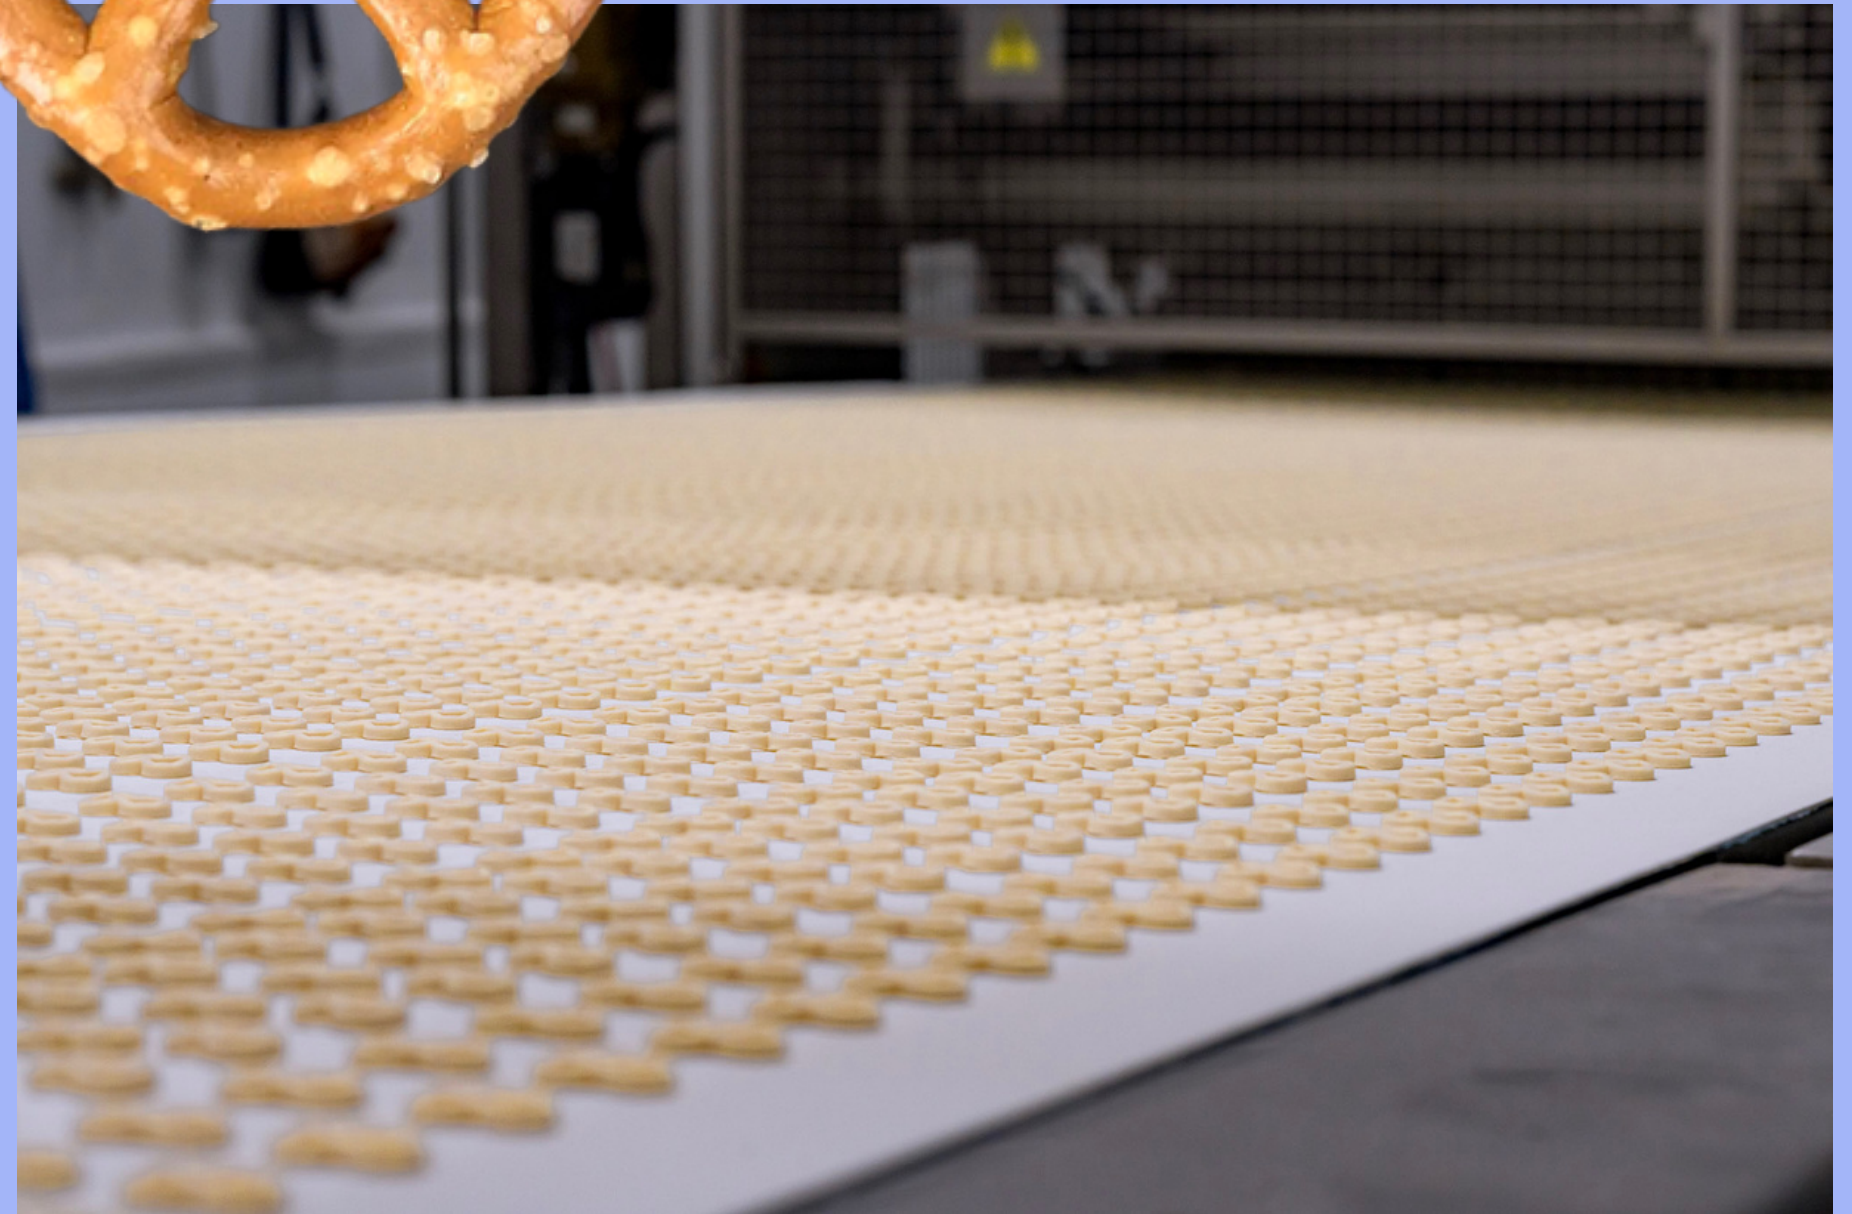

No doubt, the initial demand for Kosher products comes from committed Kosher consumers. However, the Kosher market extends far beyond the Jewish population, and includes vegetarians and people with food allergies and more.

# YOU BAKE PRETZELS!

We can bake, roast and package according to your wants and needs. We can customize pretzel shapes, sizes, seasonings, and fillings.

Traditional, Whole Wheat, and Gluten Free/KETO friendly (Chickpea & Hemp).

1 oven produces 15 million lbs. per year.

# DRIED FRUIT

Freshly Picked & Packaged by Stellar Snacks!

Over the past ten years there has been massive increases in the global consumption of tree nuts (56%) and dried fruits (24%). In today's busy lifestyle, consumers find it hard to get the nutrition they need in their diet without making sacrifices, yet 58% of consumers agree it is important to eat healthy and focus on nutrition. Nuts provide much needed energy from protein and a healthy balance of good fats. Dried fruits provide a cost effective way for consumers to get the nutritious free radical fighting power of whole fruits in their diet without the worry of keeping fresh fruits in stock. At Stellar Snacks, we source the highest quality nuts and fruits for our snack mixes, ensuring our customers receive the best of nature at the best prices available.

## PACKAGING

Our state-of-the-art packaging equipment uses a precision weight control system for all your packaging needs such as portion control, wholesale bulk and even PET jars.

Our packaging equipment includes:
