

# Assembly Instruction

## KKS B Raspberry Pi 4 - 7 Inch Official Touch Screen Stand

1. Start with the front panel

2. Put the KKS B-Cases washer on the display PCB. Then assemble the hexagon standoffs on top.

3. Put the display assembly inside the front panel. Then mount the Raspberry Pi 4 with the 4 screws.

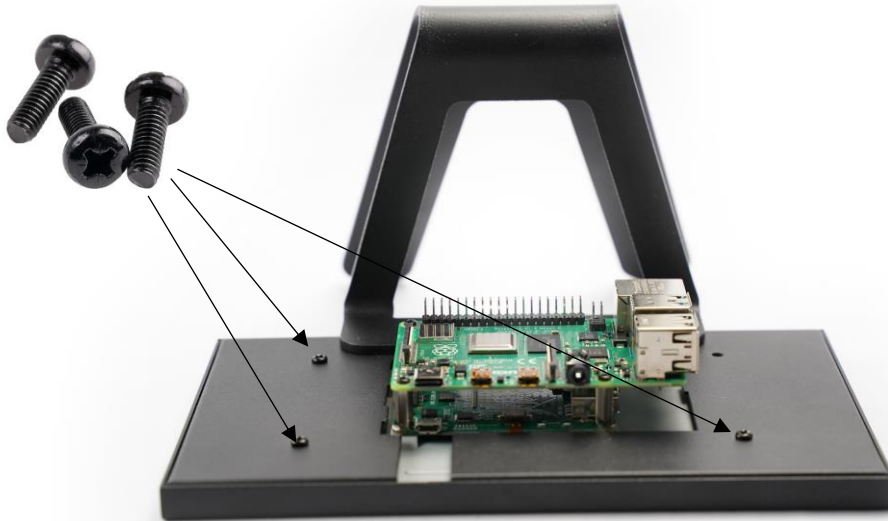

4. Add the foot assembly. Mount the rubber feet. Secure with the four screws.

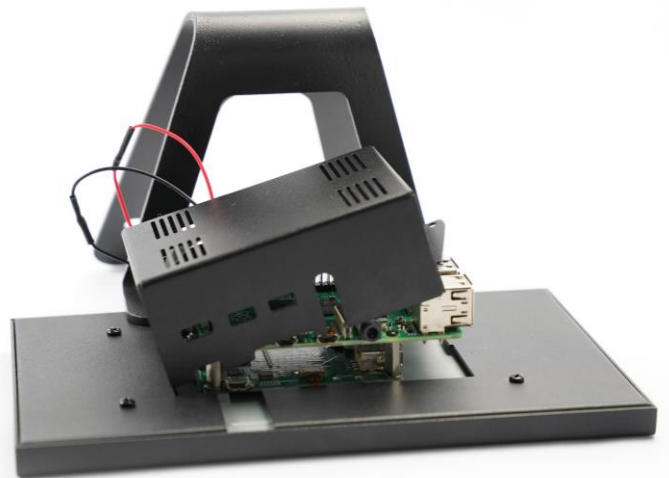

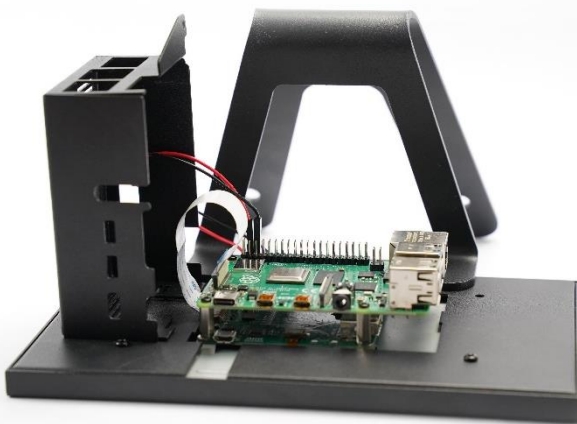

5. Secure the display to the stand with those **3** screws.

6. Connect your wires and you can already wire them through the back cover.
