Physical Barrier

A protective screen that reduces risks of getting infection for medical staffs. Mobile Inspection Screen can be applied to medical staffs when giving medical treatments to infectious patients as a physical barrier to isolate droplet of saliva, spilled blood or vomit on the other side.

BAILIDA Mobile Inspection Screen was co-developed by BAILIDA team with hospitals at the very first beginning of coronavirus outbreak, and has already been used to protect hundreds of medical staffs. BAILIDA not only produces what hospitals want, but also what hospitals need.

Transport Swabs Passage

Transport Swabs can easily be packed and sealed by going through the Transport Swabs Passage without physical contact by another medical staff.

1 Physical protective barrier for medical staffs when giving medical treatment to infectious patients.

2 Remain arms flexibility without limiting moving angles.

4 Easy to clean and sterilize

3 Unique folding structure is designed to block droplet.

5 Easy Mobile and foldable
