

FIT IN 40 CHALLENGE

WEEK 3 – MEAL & WORKOUT PLAN

Try to target a 1,500 calorie daily total when putting together your personal meal plan.

The workouts incorporate the use of fitness bands available at most sporting goods stores. A jump rope and set of dumbbells can also come in handy, but are not necessary. If you have questions on how to do certain exercises or want to make sure your form is good, there are many helpful videos available online.
