**Options (3):**

- A** = solenoid at side of port B (for single solenoid valves)
- O** = horizontal cable entrance (2)
- /D** = Internal drain
- /E** = external pilot pressure
- /H** = adjustable chokes (meter-out to the pilot chambers of the main valve)
- /H9** = adjustable chokes (meter-in to the pilot chambers of the main valve)
- L1, L2, L3** = calibrated restrictors in A and B ports of pilot valve
- /L9** = (only for DPHA-2 and DPHA-4) plug with calibrated restrictor on port P of pilot valve

(1) Approved only for the Italian market

(2) Not for multicertification **M** group I (mining)

(3) For possible combined options, see [10](#)

 For valves with internal drain (option /D), the pressure at T port makes difficult the manual override operation that can be possible only if its value is lower than 50 bar.
