SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product form: Mixture
Trade name: Image Armor LIGHT Shirt Formula
Product code: lAL001QT / lAL001G / lAL055G / lAL275G

1.2. Relevant identified uses of the substance or mixture and uses advised against
Use of the substance/mixture: Pretreatment for Direct to Garment Printing

1.3. Details of the supplier of the safety data sheet
Manufacturer:
Image Armor, LLC
220 First Dr. NE
New Philadelphia, OH 44663 - USA
Tel: +1-877-673-4377
Email: info@imagearmorpt.com

1.4. Emergency telephone number
Emergency number:
Manufacturer: +1-877-673-4377 9:00 am – 5:00pm Monday – Friday EST-Eastern Standard Time
For Chemical Emergency, Spill, Leak, Fire, Exposure or Accident Call CHEMTREC Day or Night Within USA and Canada: +1-800-424-9300
Outside USA and Canada: +1-703-527-3887 (collect calls accepted)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
GHS-US classification
Not classified

2.2. Label elements
GHS-US labelling
No labelling applicable

2.3. Other hazards
No additional information available

2.4. Unknown acute toxicity (GHS-US)
No data available

SECTION 3: Composition/information on ingredients

3.1. Substance
Not applicable
Full text of H--phrases: see section 16

3.2. Mixture
This product claimed that does not contain any substance presented in above cut-off concentration limits that classified as hazardous in accordance with paragraph (d) of §1910.1200

4.1. Description of first aid measures
First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).
First-aid measures after inhalation: Assure fresh air breathing. Allow the victim to rest. In all cases of doubt, or if victim feels unwell seek medical attention.
First-aid measures after skin contact: Wipe off excess material and wash exposed skin with mild soap and water. If skin irritation occurs: Get medical advice/attention.
First-aid measures after eye contact: Do not rub the skin and eyes after direct contact with the product. Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if pain, blinking or redness persist.

First-aid measures after ingestion: Rinse mouth. Do not induce vomiting. Give water to drink if victim completely conscious/alert. Obtain emergency medical attention.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: In the event of insufficient ventilation: In case of repeated or prolonged exposure: Inhalation of airborne droplets or aerosols may cause irritation of the respiratory tract. Nausea.

Symptoms/injuries after skin contact: Frequent or prolonged contact with skin may cause dermal irritation, redness or dry skin.

Symptoms/injuries after eye contact: Producing fumes/mist. In fine dispersion/spraying/misting: Causes eye irritation. Effects may include discomfort or pain and redness.

Symptoms/injuries after ingestion: Unlikely route of exposure.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

5.2. Special hazards arising from the substance or mixture

No additional information available

5.3. Advice for firefighters

Firefighting instructions: Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. Evacuate personnel to a safe area.

Protective equipment for firefighters: Do not enter fire area without proper protective equipment, including respiratory protection.

Other information: Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide, nitrogen oxides (NOx). Sulfur oxides. Toxic metal oxide smoke.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures: Provide adequate ventilation to minimize dust and/or vapour concentrations. Avoid breathing dust, mist or spray. Avoid generation of dust. Stop leak if safe to do so.

6.1.1. For non-emergency personnel

Protective equipment: Wear suitable protective clothing gloves, and eye/face protection. For further information refer to section 8: Exposure-controls/personal protection.

Emergency procedures: Evacuate unnecessary personnel.

6.1.2. For emergency responders

Protective equipment: Equip cleanup crew with proper protection.

Emergency procedures: Ventilate area.

6.2. Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up: Contain and/or absorb spill with inert material (sand, vermiculite or other appropriate material), then place in suitable container. Residue may be washed down with water. Ensure all national/local regulations are observed. Dispose of contents/container to comply with applicable local, national and international regulations.

6.4. Reference to other sections

See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling: Keep out of reach of children. Provide adequate ventilation. Avoid breathing dust, mist or spray. Avoid contact with skin and eyes. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. When handling a large quantity of product or during long term exposure, use of a dust mask is recommended. Avoid generation of dust. Keep container tightly closed.
Hygiene measures: Handle in accordance with good industrial hygiene and safety practices. Do not eat, drink or smoke when using this product. Wash exposed skin thoroughly with soap and water after handling.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures: A washing facility/water for eye and skin cleaning purposes should be present. Provide adequate ventilation to minimize vapor/mist concentrations.

Storage conditions: Keep out of reach of children. Keep away from sources of heat (e.g. hot surfaces), sparks and open flames. Store at room temperature. Store tightly closed in a dry, cool and well-ventilated place.

Incompatible materials: Strong acids, bases. Strong oxidizing agents.

7.3. Specific end use(s)

No additional information available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

No additional information available

8.2. Exposure controls

Appropriate engineering controls: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation.

Personal protective equipment: Avoid all unnecessary exposure. Use personal protective equipment as required. The following pictograms represent the minimum requirements for personal protective equipment. Gloves. Protective goggles. Protective clothing.

Hand protection: Wear protective gloves.

Eye protection: Wear chemical splash goggle. Eye protection, including both chemical splash goggles and face shield, must be worn when possibility exists for eye contact due to spraying liquid or airborne particles.

Skin and body protection: Long sleeved protective clothing.

Respiratory protection: If user operations generate dust or fumes, . In fine dispersion/spraying/misting: The need for respiratory protection is not anticipated under normal use conditions and with adequate ventilation. An approved organic vapour respirator/supplied air or self-contained breathing apparatus must be used when vapour concentration exceeds applicable exposure limits.

Environmental exposure controls: Avoid release to the environment.

Other information: Do not eat, drink or smoke during use. Avoid all unnecessary exposure.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Liquid
Appearance: Milky white.
Colour: White.
Odour: Odourless.
Odour threshold: No data available
pH: No data available
Relative evaporation rate (butylacetate=1): No data available
Melting point: No data available
Freezing point: No data available
Boiling point: No data available
Flash point: > 93 °C (> 200 F )
Self ignition temperature: No data available
Decomposition temperature: No data available
Flammability (solid, gas): No data available
Vapour pressure: No data available
Relative vapour density at 20 °C: No data available
Relative density: No data available
Solubility: Water: completely soluble
Log Pow: No data available
Log Kow: No data available
Viscosity, kinematic: No data available
Viscosity, dynamic: No data available
Explosive properties: No data available
Oxidising properties: No data available
Explosive limits: No data available

9.2. Other information
No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity
No additional information available

10.2. Chemical stability
Stable under normal conditions of use.

10.3. Possibility of hazardous reactions
No additional information available

10.4. Conditions to avoid
Extremely high or low temperatures. Prevent physical damage to package. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose containers to flames, sparks, heat, or other potential ignition sources.

10.5. Incompatible materials
Strong acids, bases. Strong oxidizing agents.

10.6. Hazardous decomposition products
Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide, nitrogen oxides (NOx) and sulphur oxides. Metal oxides.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity: Not classified
Skin corrosion/irritation: Not classified
Serious eye damage/irritation: Not classified
Respiratory or skin sensitisation: Not classified
Germ cell mutagenicity: Not classified
Based on available data, the classification criteria are not met
Carcinogenicity: Not classified
Reproductive toxicity: Not classified
Based on available data, the classification criteria are not met
Specific target organ toxicity (single exposure): Not classified
Specific target organ toxicity (repeated exposure): Not classified
Based on available data, the classification criteria are not met
Aspiration hazard: Not classified
Based on available data, the classification criteria are not met
Potential Adverse human health effects and symptoms: Based on available data, the classification criteria are not met.
Symptoms/injuries after inhalation: In the event of insufficient ventilation: In case of repeated or prolonged exposure: Inhalation of airborne droplets or aerosols may cause irritation of the respiratory tract. Nausea.
Symptoms/injuries after skin contact: Frequent or prolonged contact with skin may cause dermal irritation, redness or dry skin.
Symptoms/injuries after eye contact: Producing fumes/mist. In fine dispersion/spraying/misting: Causes eye irritation. Effects may include discomfort or pain and redness.

Symptoms/injuries after ingestion: Unlikely route of exposure.

SECTION 12: Ecological information

12.1. Toxicity
No additional information available

12.2. Persistence and degradability

12.4. Mobility in soil
No additional information available

12.5. Other adverse effects
Other information: Avoid release to the environment.

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste disposal recommendations: Dispose in a safe manner in accordance with local/national regulations. Ensure all national/local regulations are observed.

Additional information: Do not re-use empty containers.

Ecology - waste materials: Avoid release to the environment.

SECTION 14: Transport information

In accordance with DOT
No dangerous good in sense of transport regulations

This product is not hazardous for ground or air transportation.

**International Transport Regulations**
