PRINT HEAD NON-WARRANTY CONFIRMATION

All Print heads sold by Garment Printer Ink are brand new and purchased directly from Epson America. Unfortunately, Epson America does not offer any warranty of any kind on any print head unless it is installed by a certified Epson technician. This is the same policy for any distributor of Epson print heads and parts.

This is not a great situation for either of us, however we still need to offer print heads to fellow garment printers so they can keep their printers running.

Before you purchase a print head from GPI, we need you to acknowledge and confirm that the print head you are buying is non-refundable, non-returnable and under no warranty unless installed by a certified Epson technician.
