Banner Paper**

iColor 500/600: Ultra Heavy 3
iColor 550/540: Thick to 220g
iColor 650: Ultra Heavy 3
iColor 800: Thick to 220g

- Must be in CMYK/CMY Composite black mode
- Not for use in IColor 560

2

- Page size must match media being used. (Banner)
- Do NOT set to mirror print

3

Print the image and cut if necessary. Apply the finished media as desired.

To Avoid Jams:

- Allow your media to acclimatize – do not use the media if just delivered, especially during periods of extreme temperatures or humidity. Allow it to come to room temperature before using.
- Do not print too close to the edges of the media. Leave a border of approximately .5" between your artwork and the edge of the media.
- Be sure to use the suggested paper type and media type before printing.
- Always make sure you select the media size which matches the media being used and is appropriate for your printer.
- You cannot run the 52" length in the 350 / 540 / 550 / 800, use the 49.6" length for these printers. All others, use 52" length media.
- The IColor™ 560 cannot run lengths of more than 14" – Do not use!

Available in the following sizes:

- 11.6" x 52" (279 x 1321mm) (for IColor™ 650 / 600)**
- 8 " x 52" (216 x 1321mm) (for IColor™ 650 / 600 / 500)**
- 8 " x 49.6" (216 x 1259mm) (for IColor™ 800 / 550 / 540 / 350)**

Banner Paper is available in a variety of sizes specific to your printer and made of a white paper stock. This product was specifically designed to work with all IColor transfer printers, and will also work with many popular laser or LED printers - please check with your printer manufacturer for compatibility.

Create custom, professional paper banners in full color. This media can also be used as a dye sublimation media when using IColor toner based dye sublimation printers.
