

# TATTOO 2.1 INSTRUCTIONS

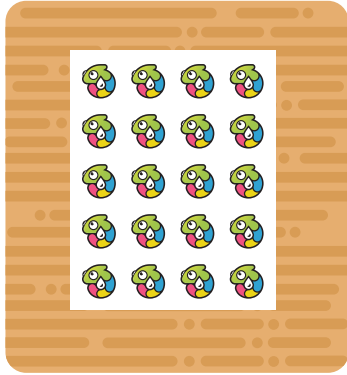

for Decal Paper and GlueSheet

1

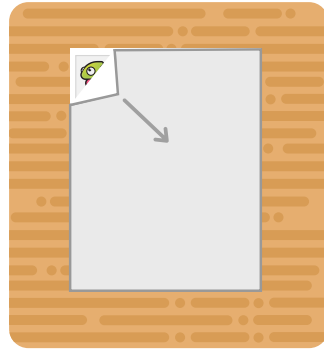

**NOTE:**

Print DecalPaper (black backprint) in MIRROR

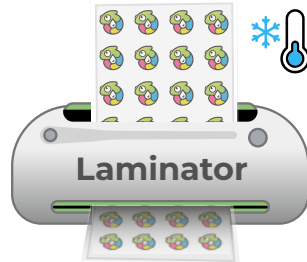

Place the printed DecalPaper print side UP on a flat surface.

2

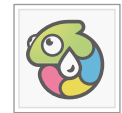

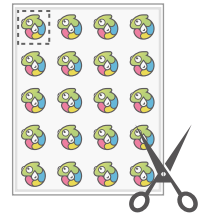

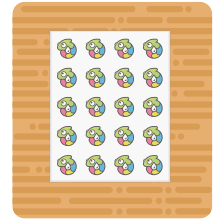

Remove the paper liner from the GlueSheet and place adhesive side face DOWN on the DecalPaper.

3

Rub the papers with a cloth or run through a COLD laminator for proper bondage.

4

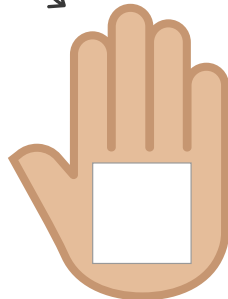

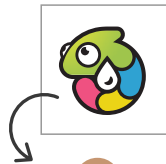

Trim the paper to the final tattoo size/ shape

5

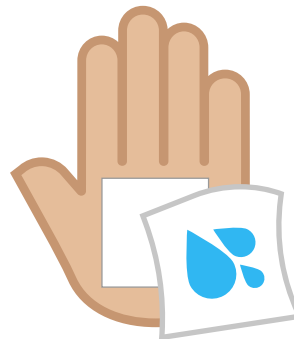

Remove the clear film. **NOTE:** Avoid touching the adhesive!

6

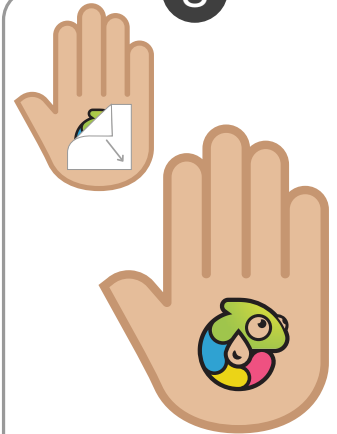

Place adhesive side DOWN in the desired position on the skin. **NOTE:** The skin must be dry & clean in order to work properly!

7

Use a wet towel or the like and firmly press the tattoo decal against the skin. Apply pressure for about 10 - 15 seconds.

8

The paper liner will easily release from the tattoo decal. Remove the paper liner and carefully wipe all excess release gel residue off the skin / decal.

**IMPORTANT:** This product is not recommended for children under the age of 3!
