# Instructions

for Digital Version/Google™ Drive Document

1. In the Google folder you received after purchasing my product, you should have found three files: the **digital version**, the **printable PDF**, and the **instructions** you are currently reading.

2. You will notice that the digital version contains the resource in its entirety. This includes Tables of Contents, student pages, answer keys, and everything else. You will also notice that the document has blue text boxes already placed everywhere that students will need to type.

MAKE ANOTHER COPY of this document by going to File>Make a copy. A window will pop up that says "Copy document." Rename it as you wish, and then click OK.

You will customize this additional copy in whatever ways you want, according to your students' needs.

3. Think through how you want to roll it out to your students. Decide what you want your students to have access to. Obviously, you won't want to share answer keys. Also, for example, do you only want to assign your students certain pages at a time? Once you decide, **delete** everything you don't want your students to have access to, and **reorganize** the remaining pages however you wish.

4. If you need to, make additional copies (as outlined in Step 3). For example, maybe you want to separate the assignments into smaller chunks, or withhold certain resources until a certain time. Just be sure to name all of your customized copies according to what they are, so it is not confusing when it comes time to share the documents with your students.

5. Once you're ready, share the documents with your students as needed. Students will need their own Google™ accounts. To share, open the document you want to share in your Google™ Drive. Then, click on the blue button in the upper right corner that says "Share."

\*Note: Sharing with students can also be done through Google™ Classroom.\*

6. Next, you will be prompted to enter the students' e-mail addresses. **Be sure to mark your shared document as "Can View,"** which is a drop down menu on the right-hand side of where you type the e-mail addresses. "Can Edit" will likely be the default selection, so you may need to change it.

7. Students will need to make their own copies since you don't want them to be able to edit your original documents. Their own copies will then get saved into their own Google™ Drives. In order to make their own copies, students will need to click the links in their e-mails, which will open the document you shared with them in Google™ Drive. Students will need to click on "File," and then "Make a copy," in the top left corner.

A box will pop up like the one below. Students can change the name of their copied documents to something of your choosing, so that it is not confusing when they share their document back with you. After they hit OK, the document will be saved to their own Google™ Drives.

Students will rename their copied documents here.

8. Students will be able to access the content, type in text boxes, and click text boxes, draw figures, etc. Changes that students make to their documents will be automatically saved.

9. Students may share with you their works in progress and finished products.

10. Don't forget that you do have the option to print the documents in black and white and color. The color versions are most handy if they are printed. Many teachers prefer to use both versions.

11. There are places where students are using iPads or tablets, this is easy to do. However, if you are using a computer, you can also use the "Insert" dropdown menu in Google™ Docs.

Your purchase includes both the PAPER version and the GOOGLE™ version of this resource.

## BONUS Paperless Version included!

- Compatible with Google™ Drive & Google™ Classroom
- Within this product are easy instructions for how to get started right away!

## MORE about the GOOGLE™ version...

- All pages are available in "Google™ Slides" with text boxes, for students to type into.
- Please note that the text within the resource itself is *not editable*. This version simply offers students the opportunity to access the pages via Google Drive™, so they may type and draw directly on the pages on their computers or tablets.
- Though the text is not editable, you may delete or reorganize the pages as needed.
- See sample screenshots on the right for a clear idea of what this looks like.
