# See what other teachers are *saying* about my resources!

I do not know where to even start with how much I loved this unit! It has absolutely everything you could need with very little prep. The chapter by chapter worksheets vary in the skills that are used and the assessments are a great variety of skills. I have purchased many novel units over the years and this was by far my very favorite with the most options of materials that were ready to use. It was the most expensive unit I have ever purchased but it was worth it! I will definitely be purchasing more units from Nothing but Class!

-Sarah P.

FANTASTIC resource! This novel study offers a simple but meaningful format, divides the book into very manageable portions, and includes all levels of thinking, from vocabulary study to higher-order analysis. LOVE IT!

-Shirley Y.

I LOVE this novel study unit. Not only did it help take the stress of prepping a novel study, it also helped my students (and me) pace ourselves through the book and strengthen our comprehension as we read. I love all the different standards touched in each of the different chapter sections. It was great for both teaching the skills, and reviewing the skills. I will use this every time I teach this study!

-Shelby M.

I have used many of the novel study resources from Nothing but Class and they are very well put together. Just the right amount of work for my 4th graders this year and the chapter worksheets have a nice variety of questions covering many key skills, particularly connecting text to self and providing text evidence to support answers.

-Elizabeth F.

This was truly the best resource I have ever purchased on TPT. It had everything we needed to do a class novel study on Holes - comprehension questions, robust vocabulary, writing prompts, and standards based practice (similes, sensory details, setting, characterization, etc.). My students loved doing the "pre-write" section before we read the book together. I will use this resource for years to come! I am going to be purchasing a few other novel studies from this author so that my students can do them during distance learning.
