

CLEANOUTS WITHOUT CUTTING CORNERS - OR DRAIN LINES

Product Features

- Most compact condensate cleanout on the market
- Clean and service drain lines without cutting
- Can blow nitrogen both ways, separately
- Code compliant
- Single Schrader allows for one hose hookup
- 1/4" hose connection; 3/4" condensate line
- Durable, Schedule 40 PVC Material
- Patent-pending

TECHNICIAN INVENTED. TECHNICIAN PROVEN.

The Jones® Valve was invented by a real HVAC technician who was looking for a way to permanently mount a multi-directional cleanout device on a condensate line so cleanouts would be faster and easier on service and maintenance calls.
