SAFETY DATA SHEET

1. Product and Company Identification

Product identifier	Stainless Steel Cleaner (4084-75)		
Other means of identification	Not available		
Recommended use	Stainless Steel Cleaner		
Recommended restrictions	None known.		
Manufacturer information	Nu-Calgon 2008 Altom Court St. Louis, MO 63146 US Phone: 314-469-7000 / 800-554-5499 Emergency Phone: 1-800-424-9300 (CHEMTf	REC)	
Supplier	See above.		
	2. Hazards Identification	n	
Physical hazards	Flammable aerosols	Category 1	
-	Gases under pressure	Liquefied gas	
Health hazards	Sensitization, skin	Category 1	
	Specific target organ toxicity, single exposure	Category 3 narcotic effects	
	Specific target organ toxicity, repeated exposure	Category 2	
	Aspiration hazard	Category 1	
Environmental hazards	Not classified.		
WHMIS 2015 defined hazards	Not classified		
Label elements			
		>	
Signal word	Danger		
Signal word Hazard statement	Danger Extremely flammable aerosol. Contains gas under pressure; may explode if May be fatal if swallowed and enters airways. May cause an allergic skin reaction. May cause drowsiness or dizziness. May cause damage to organs through prolong		
-	Extremely flammable aerosol. Contains gas under pressure; may explode if May be fatal if swallowed and enters airways. May cause an allergic skin reaction. May cause drowsiness or dizziness.		
Hazard statement	Extremely flammable aerosol. Contains gas under pressure; may explode if May be fatal if swallowed and enters airways. May cause an allergic skin reaction. May cause drowsiness or dizziness. May cause damage to organs through prolong Keep away from heat, hot surfaces, sparks, op Do not spray on an open flame or other ignitio	ged or repeated exposure. pen flames and other ignition sources. No smoking. n source. Do not pierce or burn, even after use. ng should not be allowed out of the workplace.	
Hazard statement Precautionary statement	Extremely flammable aerosol. Contains gas under pressure; may explode if May be fatal if swallowed and enters airways. May cause an allergic skin reaction. May cause drowsiness or dizziness. May cause damage to organs through prolong Keep away from heat, hot surfaces, sparks, op Do not spray on an open flame or other ignitio Do not breathe gas. Contaminated work clothi Wear protective gloves. Use only outdoors or IF SWALLOWED: Immediately call a POISON IF ON SKIN: Wash with plenty of water. If skir advice/attention. Specific treatment (see inforr and wash it before reuse.	ged or repeated exposure. pen flames and other ignition sources. No smoking. n source. Do not pierce or burn, even after use. ing should not be allowed out of the workplace. in a well-ventilated area. I CENTER/doctor. Do NOT induce vomiting. n irritation or rash occurs: Get medical

Ing should not be allowed out of the workplace. in a well-ventilated area. I CENTER/doctor. Do NOT induce vomiting. In irritation or rash occurs: Get medical mation on this label). Take off contaminated clothing keep comfortable for breathing. Call a POISON wratures exceeding 50°C/122°F. Store in a osed. Store locked up.	
Hazard statement Precautionary statement Prevention Response Storage	 Extremely flammable aerosol. Contains gas under pressure; may explode if May be fatal if swallowed and enters airways. May cause an allergic skin reaction. May cause drowsiness or dizziness. May cause damage to organs through prolong Keep away from heat, hot surfaces, sparks, op Do not spray on an open flame or other ignitio Do not breathe gas. Contaminated work clothi Wear protective gloves. Use only outdoors or it IF SWALLOWED: Immediately call a POISON IF ON SKIN: Wash with plenty of water. If skir advice/attention. Specific treatment (see inforr and wash it before reuse. IF INHALED: Remove person to fresh air and CENTER/doctor if you feel unwell. Protect from sunlight. Do not expose to tempe well-ventilated place. Keep container tightly classical sectors. 	ged or repeated exposure. pen flames and other ignition sources. No smoking. In source. Do not pierce or burn, even after use. Ing should not be allowed out of the workplace. in a well-ventilated area. I CENTER/doctor. Do NOT induce vomiting. In irritation or rash occurs: Get medical mation on this label). Take off contaminated clothing keep comfortable for breathing. Call a POISON wratures exceeding 50°C/122°F. Store in a osed. Store locked up.	

3. Composition/Information on Ingredients

Mixture				
Chemical name	Common name and synonyms	CAS number	%	
Distillates (petroleum), light hydrotreated		64742-47-8	60-100	
Distillates (petroleum), straight-run middle		64741-44-2	10-30	
Propane		74-98-6	7-13	
Butane		106-97-8	1-5	
d-Limonene		5989-27-5	0.1-1	

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments	US GHS: The exact percentage (concentration) of composition has been withheld as a trade
	secret in accordance with paragraph (i) of §1910.1200.

4. First Aid Measures			
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell.		
Skin contact	IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. Specific treatment (see information on this label). Take off contaminated clothing and wash it before reuse.		
Eye contact	Flush with cool water. Remove contact lenses, if applicable, and continue flushing. Obtain medical attention if irritation persists.		
Ingestion	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting.		
Most important symptoms/effects, acute and delayed	Aspiration may cause pulmonary edema and pneumonitis. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Diarrhea. May cause an allergic skin reaction. Dermatitis. Rash. Prolonged exposure may cause chronic effects.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Symptoms may be delayed.		
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse. Avoid contact with eyes and skin. Keep out of reach of children.		
	5. Fire Fighting Measures		
Suitable extinguishing media	Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide.		
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.		
Specific hazards arising from the chemical	Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.		
Special protective equipment and precautions for firefighters	Not available.		
Fire-fighting equipment/instructions	In case of fire: Stop leak if safe to do so. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up.		
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.		
General fire hazards	Extremely flammable aerosol. Contents under pressure. Pressurized container may explode when exposed to heat or flame.		
Hazardous combustion products	May include and are not limited to: Oxides of carbon.		

	6. Accidental Release Measu	ures		
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Do not breathe gas. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.			
Methods and materials for containment and cleaning up	Refer to attached safety data sheets and/or instructions for use. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Use water spray to reduce vapors or divert vapor cloud drift. Isolate area until gas has dispersed. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Prevent entry into waterways, sewer, basements or confined areas. Dike far ahead of spill for later disposal. Scoop up used absorbent into drums or other appropriate container. Following product recovery, flush area with water. For waste disposal, see section 13 of the SDS.			
Environmental precautions	Avoid discharge into drains, water courses or o streams, ponds or public waters.	nto the ground. Do n	ot discharge into lakes,	
	7. Handling and Storage			
Precautions for safe handling	Keep away from heat/sparks/open flames/hot surfaces No smoking. Do not smoke while using o until sprayed surface is thoroughly dry. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt. Do not breathe gas. Avoid contact with eyes, skin, and clothing. Use only in well-ventilated areas. Avoid prolonged or repeated contact with skin. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. When using do not eat or drink.			
Conditions for safe storage, including any incompatibilities	Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Keep away from heat and sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in original tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS). Stored containers should be periodically checked for general condition and leakage. Keep out of reach of children.

Initial boiling point and boiling range	Not available.				
Pour point	Not available.				
Specific gravity	0.821 (liquid)				
Partition coefficient (n-octanol/water)	Not available.				
Flash point	-156.0 °F (-104.4 °C) (Propellant)				
Evaporation rate	Not available.				
Flammability (solid, gas)	Not available.				
Upper/lower flammability or exp	losive limits				
Flammability limit - lower (%)	Not available.				
Flammability limit - upper (%)	Not available.				
Explosive limit - lower (%)	Not available.				
Explosive limit - upper (%)	Not available.				
Vapor pressure	35 - 55 psi (20°F) 75 - 95 psi (130°F)				
Vapor density	Not available.				
Relative density	Not available.				
Solubility(ies)	Not available.				
Auto-ignition temperature	Not available.				
Decomposition temperature	Not available.				
Viscosity	< 25 cps				
Other information					
Explosive properties	Not explosive.				
Flame projection	12 in				
Flammability (flash back)	Yes				
Heat of combustion	37.89 kJ/g				
Oxidizing properties	Not oxidizing.				

10. Stability and Reactivity

Reactivity	This product may react with strong oxidizing agents.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Chemical stability	Material is stable under normal conditions.
Conditions to avoid	Heat, open flames, static discharge, sparks and other ignition sources. Do not mix with other chemicals.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	May include and are not limited to: Oxides of carbon.

11. Toxicological Information

	<u> </u>			
Routes of exposure	Eye, Skin contact, Inhalation, Ingestic	on.		
Information on likely routes	of exposure			
Ingestion	Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. May cause stomach distress, nausea or vomiting.			
Inhalation	May cause damage to organs through prolonged or repeated exposure by inhalation. May cause drowsiness and dizziness. Headache. Nausea, vomiting.			
Skin contact	May cause an allergic skin reaction.			
Eye contact	Direct contact with eyes may cause temporary irritation.			
Symptoms related to the physical, chemical and toxicological characteristics	Headache. Nausea, vomiting. Diarrhe	ema and pneumonitis. May cause drowsiness and dizziness. ea. May cause an allergic skin reaction. Dermatitis. Rash.		
Information on toxicological	effects			
Acute toxicity	May be fatal if swallowed and enters reaction.	May be fatal if swallowed and enters airways. Narcotic effects. May cause an allergic skin
