# PACKING TIPS

1. Start the ride with all your dry gear filling the whole bag (pack from the black-clipped side)
2. When any gear becomes wet, you can pack it into the blue-clipped side and your dry items will remain dry!
3. Overall bag dimensions remain the same and the clever divider self-adjusts to the proportion of wet/dry gear

Roll down bag top at least 3 folds and secure with buckle
