

MAKEBE · COLLECTION

INTRODUCTION OUR BRAND

Since 1995 Stefano Pozza has been passionately dedicating himself to the manufacturing of high quality metal components.

Always looking for a link between the tradition of its culture and the innovation of the new ideas that anticipate the future, he finally created a range of fashion-light tech equipment for horse & riders which has acquired 10 years of knowledge.

In 2015, his early love for valuable fabrics and traditional workmanship driven him to make one of his dreams come true: the Makebe iconic apparel.

After 6 years Makebe became a company of Italian excellence in the equestrian sector; internationally recognized for the reliability and design of its products.

We do take care as well about the Innovation as you could notice from our technical line, which is unique in the market. Every single project or single item is designed to give you added value and not just another product. Ergonomic designs, innovative materials that make perspiration transpire, attention to details ... this we want to continue to do for you with the ever-renewed passion that moves everything in us.

We proudly produce in Italy, with different artisan laboratory giving a real touch of the hand made things. This is a priority for us and for our inner value, offering our best to our beloved customers around the world, who renew their trust in us year after year to our utmost satisfaction.

MAKEBE meaning

Many of you write us or ask us by phone about the origin of the logo and the name. The logo represents a love story between a father / husband and his beloved daughters and wife. The two horizontal lines are the initials of our daughters Maddalena and Benedetta, while the vertical line represents Ketty, the one who always keeps our family together with so much love. Yes, because Makebe is a family business with simple but deeply rooted values, such as Love.

MAKEBE INSPIRATIONS

The product aims to express the true story of OBJECTS that are synonymous of style and Italian culture. Makebe creations are entirely hand made in Italy with genuine materials only, as result of a lifestyle rich of little daily satisfactions, obtained with engagement and dedication, creativity and imagination, using modern technology, but also applying the ancient traditions. Makebe designs are contemporary, refined and timeless.

They combine technological material with sophisticated natural fabrics and innovative shapes for a comfortable and elegant clothing that guarantees excellent fit and high performance.

The brand is driven by family values: honesty, loyalty and faith. Love is always at the centre of life, as personified by the logo which is inspired by a Balinese temple. Diversity and unity, as well as positive energy and good will, are milestones for Makebe.

FREE MOVEMENT SYSTEM

FMS - Il "free movement system" è un sistema di utilizzo di diversi materiali elasticizzati nella zona delle spalle e schiena, che permette una maggiore libertà di movimento all'atleta.

FMS - The " free movement system " is a system of using different elastic materials in the shoulder and back area , which allows greater freedom of movement to the athlete.

WOMEN CLOTHING

JUMP WAVE STIRRUP

The Wave jump stirrup made of aluminum with incline bench and innovative grip that, in addition to be very comfortable, it is also easy to clean allowing you to keep your stirrup always in perfect condition.

One of the features that make this a unique stirrup is also the weight, only 320 grams but with the guarantee of excellent corrosion resistance and durability which is one of the main features that characterize the aluminum.

Made in 3 mat colors obtained with the anodic oxidation process which ensures the preservation of the gloss and stability of the color.

JUMP

DRESSAGE WAVE STIRRUP

The Wave jump stirrup made of aluminum with incline bench and innovative grip that, in addition to be very comfortable, it is also easy to clean allowing you to keep your stirrup always in perfect condition.

In this Dressage version, we preferred to give a bit more weight to the bench, so as to facilitate the repositioning of the same in case of loss. One of the features that make this a unique stirrup is also the weight, only 350gr but with the guarantee of excellent corrosion resistance and durability which is one of the main features that characterize the aluminum. Made in 3 mat colors obtained with the anodic oxidation process that guarantees the maintenance of gloss and color stability.

THE ONLY **BREATHABLE** TENDON BOOT ON THE MARKET

RESTYLED

I paratendini "TEMPLE" con sistema di traspirazione e protezione sono caratterizzati da un inserto centrale intercambiabile, che permette l'alternanza di diversi abbinamenti di colore e la traspirazione attraverso speciali aperture. Grazie a materiali di alta qualità, quali il morbido neoprene traspirante con bordature in LYCRA per evitare le fiaccature, e lo scafo in TPU, garantiscono adeguata protezione e ventilazione ai tendini del cavallo. Sistema di chiusura con due cinghiette elastiche a tripla regolazione.

The "TEMPLE" tendons protection boots with breathable and protection system are characterized by a central insert interchangeable, which allows the alternation of different color combinations and transpiration through special openings. Thanks to high quality materials, such as soft breathable neoprene with LYCRA edging to avoid sores, and the hull in TPU, ensures adequate protection and ventilation in the tendons of the horse. Fastening system with two elastic straps to triple adjustment.

07

LIMO BITS

“REMEMBER: MORE PRESSURE CREATE MORE RESISTANCE”

LIMO • BITS

PRO PORTSMOUTH LIMOBITS

The Pro Portsmouth LimoBit is the ideal bit for the overly sensitive horse that either tucks behind the vertical or throws their head. The precise angles of the port are designed to relieve bar and tongue pressure for those sensitive horses encouraging them to find that softer contact. Whilst the rubber material was to chosen for the more reactive mouths.

There are two options; one is a medium rubber for the very sensitive mouths and the other a firmer rubber (stiff) for the horse that wants a more solid feel in the mouth.

The Pro Portsmouth is the perfect bit for anything from starting horses to top level competition. Created for the new generation of horses mouths. Lateral cheeks are made out form solid anodized aluminium in 3 different color. We offer 11 cheeks types.

4 RINGS GAG BIT

LEATHER BITS

Limobits line is born from the desire to protect the horse's mouth and above all in its respect. Therefore, it was logical for us at Limo to start a production of NATURAL LEATHER mouthpieces. This kind of bit is not very aggressive and its soft structure guarantees a congenial feeling. Well accepted by all types of horses, even more so for those who have a sensitive mouth.

LOOSE RING

LBLR

Filetto in pelle naturale rigido. Dim. 115/125/135 mm.

Stiff Leather loose ring Dim. 115/125/135 mm.

LBLRG

Filetto in pelle naturale di grosso spessore (26x15 mm) con anelli diametro 90mm . Dim. 115/125/135 mm.

Thick Leather loose ring (26x15mm) with 90mm diameter rings Dim. 115/125/135 mm.

BIT WASH

These washers avoid pinching the commissure of the lips at the tip. Made of very soft technical material for proper use in the "mouth" area. They are recommended as well for the correct positioning of the tip in the horse's mouth. In particular, they prevent the tip from coming out of the horse's mouth when the rider acts on a single bridle. In some cases, the washers are useful for reducing the distance between the rings when the tip is too wide for the horse's mouth, improving horse comfort.

LSB

Staffili in pelle con anima in Nylon anti-allungamento.

Disponibile in Marrone e Nero.

Misura = 125/135/145 cm

Leather stirrup with anti-stretch Nylon core.

Available in Brown and Black.

Size = 125/135/145 cm

LEATHER STIRRUP

LSF

Staffili larghi in cuoio (50 mm). Molto confortevoli, la loro maggior superficie di contatto garantisce una miglior stabilità al cavaliere, inoltre non torcendosi a contatto con i quartieri della sella o con stivale evitano di provocare dolore al polpaccio del cavaliere.

Disponibile in Marrone e Nero.

Misura = 125/135/145 cm

Large leather stirrups (50 mm). Very comfortable, their wider contact's surface guarantees greater stability to the rider, moreover it does not twist when touching the saddle flaps or the boots avoiding pain on the rider's calf.

Available in Brown and Black.

Size = 125/135/145 cm
