WIFI CONNECTIVITY

The smart and intuitive GREE+ app allows you to control your air conditioning unit via Wi-Fi from your cell phone or tablet. Change the temperature, set a schedule, and adjust fan speed without having to go anywhere.

WORRY-FREE AIRFLOW

Keep cool air from blowing directly into your face with the 90 degree oscillation. The oscillation feature circulates the air and allows a larger area of the room to be cooled more efficiently.

HIGH-QUALITY CONSTRUCTION

The evaporator coils inside the Aomi are copper-clad to prevent rust and corrosion. The patented rotary compressor allows the unit to start up quickly and continue to operate stably. It helps to provide fresh air for a long time.
