AUTOMATIC OPERATION

SLEEP MODE

WASHABLE DUST FILTER

3-IN-1 UNIT

* Drain hose not included.

SELF-EVAPORATION SYSTEM

This air conditioner uses self-evaporating technology that cools the condenser coils with water from the air. This reduces the water collected in the tank, which means you won't need to empty it as often. Relax and enjoy all that extra free time!

USER-FRIENDLY DESIGN

Easy-to-use control panel with electronic buttons and easy-to-read digital LED display; innovative vertical air outlet design; two-way air oscillation for wide air distribution; concealed housing for remote control on back.

REUSABLE FILTER

No more searching for the right air filter! We've equipped this air conditioner with a washable filter that can be cleaned with soap and water. This filter catches large particles such as pollen, dander and hair to keep your air conditioner running smoothly.
