## ELECTRONIC WINDOW AIR CONDITIONER

c UL us    energy ENERGY STAR

The **Curve** line of window air conditioners is an economical cooling option for the summer, ranging from 350 to 700 square feet, depending on the model, and features electronic controls and a multi-function remote. In addition to cooling your room, these units reduce humidity and mold to improve air quality.

**EVAPORATIVE DEHUMIDIFIER**

**AUTO-RESTART**

**5 YR** LIMITED WARRANTY Compressor

## IFEEL TECHNOLOGY

Nothing is worse than an inaccurate thermostat. When you use the iFeel feature, the air conditioner uses a sensor on the remote control that feels the room temperature at its location and communicates with the unit to adjust the temperature and airflow efficiently and accurately.

## INSTALLATION KIT

The extendable side panels and all hardware required for horizontal installation in a double-hung window are included with the purchase of this air conditioner. Installation is a snap by following the simple instructions in the user's manual, also included.

## REUSABLE FILTER

Keep dust out of the air and your unit running smoothly with our easy-to-clean filter. The cleaning reminder will alert you after 250 hours of operation that a filter cleaning is due to ensure the efficiency of your air conditioner.
