CONTROL YOUR CONFORT – WITH YOUR SMARTPHONE !

For maximum convenience, select GREE heat pump and air conditioner models come with built-in smart WiFi. This allows you to control your unit via your cell phone and GREE+ app anywhere you have access to your WiFi network. The GREE+ app is compatible with mobiles using Android or iOS operating systems.

The GREE+ app can connect an unlimited number of WiFi enabled GREE products.

Operating System Requirements :

iOS System
Supports iOS 7.0 and above.

Android System
Supports Android 4.0 and above.

ADDING THE GREE+ APP TO YOUR PHONE

STEP 1.
SELECT AND DOWNLOAD THE GREE+ APP

Scan the accompanying QR code to open the GREE+ app selection page. On the selection page, choose either the Apple Store for iOS or the Google Play Store for Android to download the GREE+ app to your mobile device.

REGISTERING YOUR GREE UNIT ON THE GREE UNIVERSAL WIFI SYSTEM

STEP 1.
TURN ON THE WIFI INTERFACE OF THE UNIT

Remote Controller With "WiFi" Button : Press and hold the 🛜 button for 10 seconds until the unit beeps a second time and the icon **WiFi** appears on the screen. Repeat the process to disable the WiFi function if necessary.

Remote Controller Without "WIFI" Button : Press and hold the △ and ⑨ buttons for 10 seconds until the unit beeps a second time and the icon **WiFi** appears on the screen. Repeat the process to disable the WiFi function if necessary.

Remote with "WiFi" Button

Remote without "Wifi" Button

STEP 2.
LAUNCH THE GREE+ APP ON YOUR SMARTPHONE

Locate the GREE+ icon, then tap it to launch the app.

STEP 3.
SIGN UP FOR GREE UNIVERSAL WIFI ACCESS

The GREE+ login screen will be displayed.

For new users, tap the "Sign Up" button to create an account and register your GREE device.

On the sign up screen, you will need to...

- create a username,
- enter your email address,
- create a password,
- select a region (e.g. North America).

Then, press the "Sign Up" button.

STEP 4.
ADD YOUR WIFI NETWORK TO THE GREE+ ACCESS

Set the local WiFi network to which the GREE device will be connected and through which it will communicate. To do so, on the "My Home" screen, press the **+** button, then select your personal WiFi network and enter the password for it. If you want GREE+ to remember the password, check the box (optional). Finally, press the "Search Device" button.

Available WiFi Network Screen

STEP 5.
ADD YOUR GREE UNIT TO THE GREE+ APP

The GREE+ app will search for GREE devices on your WiFi network.

When a GREE device is found, it will be automatically registered on the GREE universal WiFi system. The application will display the device name (e.g. AC5bcf).
