

Ava Bunk

- Great for Kids
- Rubberwood timber, LVL, & MDF panel construction
- 'T&G' effect MDF end panels
- Strong right-side fixed ladder with hand grips, for steady entry to the upper bunk level
- Strong 64mm x 33mm rectangular bunk end leg posts
- Strong LVL 60mm x 15mm laminated slats; all to be screwed into position. 14 (Single) or 15 (King Single) slats per level.
- Strong upper bunk guardrails will allow up to a 20cm thick mattress to be used with the required 16cm safety clearance.
- Additional internal headroom on the bottom bunk (800mm between lower and upper bunk side rails excluding mattress).
- [Click to view](#) the Assembly Instructions

- Underbed storage space of 220mm
- Can be separated to provide 2 separate beds using lower bunk head ends: 895mm(h) with upper bunk foot ends: 660mm(h)

Safety & Weight Limit:

- Complies with approved Laboratory tested, and fully certified, to AS/NZS 4220:2010 Bunk safety standards.
- 110kg weight limit on each level – when using an innerspring mattress
