

## Gin Bar 90 Series

Combining the functionality of a bar-height table with an integrated, elongated flame, EcoSmart's freestanding Gin 90 Bar fire pit table is ideal for encouraging casual conversation. Paying homage to traditional bar tables – not surprisingly also known as “gathering tables” – but with a stunning twist, the Gin 90 Bar table enhances modern or contemporary environments and instantly creates a relaxed atmosphere.

Designed with ample dimensions to accommodate a glass or small plate, the Gin 90 Bar table is the perfect height to pair with bar stools or to use as a standalone and practical design feature whether indoors or out. The tall, slimline fire pit table is fuelled by environmentally-friendly e-NRG fuel and comes with a toughened glass screen and decorative glass media as standard features.

The EcoSmart Gin 90 BAR table is designed to create an inviting atmosphere with style – the perfect addition to any residential or hospitality environment.
