

Sidecar

Standalone or perfectly paired with complementary furniture pieces, EcoSmart's modern Sidecar 24 fire pit is created to provide design flexibility for indoor and alfresco environments. With its clean square lines, compact shape and smaller footprint, the 50cm-tall Sidecar 24 is ideal to enhance and illuminate smaller spaces, and if you're wanting something more for when you entertain, then try adding one, two or more Fluid™ Concrete Cube 24 side-table modules from Blinde Design. The result is a stunning, functional combined fire pit and coffee/side-table – all in one. Each versatile, lightweight, portable module has been designed to perfectly 'fit' together to suit your indoor or outdoor room, and you can easily reconfigure and reposition depending on your needs.

- Includes AB8 Stainless Steel Burner
- 610 x 610 x 460

Accessories included:

- Jerry Can, Designer Lighter, Lighting Rod and Extension Spout and Glass Screen

Key Features:

- Grade 304 Stainless Steel, Black Glass Charcoal as Decorative Media
- Includes AB8 Stainless Steel Burner
- Heats on Average: Over 60 m2 indoors
- Minimum Room size: 116 m3

AB8 Burner Efficiency:

- Capacity: 8 L [2.1 Gal]
- Heats on Average: 60m2 [646ft2]
- Minimum Room: 116m3 [4097ft3]
- Burn Time: 7 - 11h
- Thermal Output: 56 MJ/h - 20433 BTU/h - 6 kW Enduring style

Simple but chic design, with an ultra-modern geometric base featuring a 'kick' that visually lifts the firepit off the floor, and decorative media in the burner tray to add that extra pizzazz.

Ideal for smaller places

Made with a smaller footprint to suit spaces where size is a key consideration. It's equally at home in larger spaces – especially when you take advantage of its versatility (see next key feature).

Configuration versatility

Perfect by itself as an individual statement piece of fire furniture, or when it's paired with optional Blinde Design Cube 24 components, to create a functional, easily configured coffee or side table. Scale up, scale down, the choice is yours!

Coffee table conversion

An optional glass cover plate allows for easy conversion to a coffee table when the fireplace isn't in use.

Robustness

Crafted from weather-resistant Fluid™ Concrete, an incredibly strong yet relatively lightweight material. Features a stain and impact-resistant barrier that protects it from environmental weathering - even under extreme conditions and long UV exposure.
