4.Installation

Milesight

4.1 Mini (PoE) NVR 1000 Series Installation

Step1: Remove the screws at the bottom panel and pull up the casing.

(MS-N1004-UPC/MS-N1008-UPC/MS-N1004-UC/MS-N1008-UC)

(MS-N1008-UNPC/MS-N1008-UNC)

Step2: Insert SATA HDD in the slot as required.

Milesight

(MS-N1004-UPC/MS-N1008-UPC/MS-N1004-UC/MS-N1008-UC)

(MS-N1008-UNPC)

(MS-N1008-UNC)

Note: MS-N1008-UNC supports two SATA HDD (2.5"), MS-N1004-UPC/UC and

MS-N1008-UNCT support one SATA HDD (3.5").

Step3: Secure the HDD with screws.

Milesight

(MS-N1004-UPC/MS-N1008-UPC/MS-N1004-UC/MS-N1008-UC)

(MS-N1008-UNC)

Step4: Put back the casing and tighten the screws.

(MS-N1004-UPC/MS-N1008-UPC/MS-N1004-UC/MS-N1008-UC)

(MS-N1008-UNPC/MS-N1008-UNC)

4.2 Pro/PoE NVR 5000 Series Installation

MS-N5008-UC/MS-N5008-UPC:

Milesight

Step1: Using a cross screwdriver to remove the screws at the rear panel and side panel in an anticlockwise direction.

Step2: Slide the upper casing to the rear first and lift it up.

Step3: The internal structure of the nvr is shown as below.

(MS-N5008-UC)

(MS-N5008-UPC)

Step4: Secure the HDD from the bottom of the casing. 4 screws for each HDD.

(2.5" HDD Installation)

(3.5" HDD Installation)

Step5: After that, check if all the screws are tightened. Then connect the power cable and data cable to each HDD.

Milesight

(Screw Position of 3.5" HDD)

Step7: Pull down the upper casing and slide it to the front.

Step7: Lock the screws on the rear panel and side panel.

BETTER INSIDE, MORE IN SIGHT

MS-N5016-E/MS-N5016-PE:

Milesight

Step1: Using a cross screwdriver to remove the screws at the rear panel in an anticlockwise direction.

(Pro 5000 Series)

(PoE 5000 Series)

Step2: Slide the upper casing to the right first and lift it up.

Step3: The internal structure of nvr is shown as below.

(MS-N5016-E)

(MS-N5016-PE)

Step4: Hard Disk Installation: Lock the hard disk with the HDD bracket. 6 screws for each hard disk installation.

Step5: Secure the HDD brackets with hark disks in the casing. 4 screws for each

HDD bracket.

NVR Quick Start Guide

Milesight

(MS-N5016-PE)

Step6: After that, check if all the screws are tightened. Then connect the power cable and data cable to each HDD.

Step7: Pull down the upper casing and slide it to the left.

Step8: Retighten the screws on the rear panel.

(MS-N5016-E)

(MS-N5016-PE)

4.3 Pro/PoE NVR 7000 Series Installation

Step1: Using a cross screwdriver to remove the screws at the rear panel in an anticlockwise direction.

(Pro 7000 Series)

Step2: Slide the upper casing to the right first and lift it up.

Step3: The HDD bracket is rotatable and can be taken down by pulling up and rotating one side of it.

Milesight

(Pro 7000 Series)

(PoE 7000 Series)

Step4: To install HDD more conveniently, you can:

1) Remove the bracket.

Milesight

(Pro 7000 Series)

2) Install the HDD on the bracket.

3) After securing the HDD on bracket, insert the bracket back to the NVR.

(PoE 7000 Series)

Step5: Check if all the 16 screws in HDD bracket are screwed tightly, if not, screw them tightly in an clockwise direction. And fix the bracket with a screw in the middle of bracket. Then connect the power cable and data cable to each HDD.

(PoE 7000 Series)

Step6: Pull down the upper casing and slide it to the left.

Step7: Retighten the screws on the rear cover.

(Pro 7000 Series)

(PoE 7000 Series)

4.4 Pro NVR 8000 Series Installation

Step1: Using a cross screwdriver to remove the screws at the rear panel in an anticlockwise direction.

Step3: Using the screwdriver to remove the screw in the middle of HDD bracket in an anticlockwise direction (Pro 7000 has only one HDD bracket and Pro 8000 has two, while the installation steps are the same).

Step4: The HDD bracket is rotatable and can be taken down by pulling up and rotating one side of it.

Step5: Secure the HDD with 4 screws. Don't screw tight and leave about 1mm distance at the side of each screw nut. As the enlarged drawing shows:

Step6: After securing each HDD with 4 screws, stuck the side with screw nuts in the bracket's slots and then slide down to fix the HDD in the bracket. Screw

tight with screwdriver.

Milesight

Step7: Repeat the above steps to install HDD in the bracket. Remember to check if you have screwed tight.

Step8: Secure the 16 screws in HDD and fix the bracket with a screw in the middle of it. Then connect the power cable and data cable to each HDD.

Step9: Pull down the upper casing and slide it to the left.

Step10: Retighten the screws on the rear panel.

5.Connection Overview

Connect different devices to the interfaces of NVR, taking Mini (PoE) NVR Series (MS-N1008-UNC & MS-N1008-UNPC) and PoE 7000 NVR Series (MS-N7016-UPH) for example:

(Mini NVR Series (MS-N1008-UNC))

(Mini PoE NVR Series (MS-N1008-UNPC))

(PoE 7000 Series (MS-N7016-UPH))

6. Ready to Start

Press the power button, the LED Indicator will light steadily when it is connected to a power source, taking Mini NVR Series (MS-N1009-UT) and PoE 7000 NVR Series (MS-N7016-UPH) for example:

(Mini NVR Series (MS-N1009-UT))

(PoE 7000 Series (MS-N7016-UPH))

Note: Milesight 4-CH/8-CH/16-CH/24-CH Plug and Play NVR features 4/8/16/24 independent PoE Ports. The software can automatically detect and configure the network cameras just after being plugged the cable, greatly eliminating the need for much time and expertise, and achieving a virtually hassle-free installation process.

NVR Quick Start Guide

7.Access to NVR

Milesight

7.1 Search the NVR via Smart Tools

If the IP address of the NVR is unknown, please use the Smart Tools to search the IP address. Smart Tools can automatically detect online Milesight NVRs connected in the LAN. You can get the IP address of the NVR by searching in the Tools.

Click on the NVR Tools button to enter the NVR Tools interface:

The specific steps are as follows:

Step1: Input the MAC address (marked as 1) to search your NVR;

Step2: Click on the area (marked as 2) to list the NVR one by one;

Step3: Click on your NVR in the list (marked as 3), then you can change the

parameters including the IP address, Port, Netmask, Gateway and DNS.

Milesight

If the selected NVR shows "Active" in the status bar, you can directly type the User Name and Password (NVR with version lower than 7x.9.0.3 is using admin/ms1234 by default), change the IP address or other network values, and then click "Modify" button;

								V2.4.0.1-r3				Save SClea	

If the selected NVR shows "Inactive" in the status bar(NVR with version V7x.9.0.3 or above), click Control Activate to set the password when using it for the first time. You can also set the security questions when activating the NVR in case that you forget the password(You can reset the password by answering three security questions correctly). Click 'Save' and it will show that the activation was successful.

Note:

- (1) Password must be 8 to 32 characters long, contain at least one number and one letter.
- (2) You need to upgrade Smart Tools version to V2.4.0.1 or above to activate the NVR.

Alternate DNS server:	
	xit

b. Click "Advanced", and then click "IP settings" → "IP address" → "Add". In the pop-up window, enter an IP address that in the same segment with Milesight network camera (e.g. 192.168.5.61, but please note that this IP address shall not conflict with the IP address on the existing network);

IP Settings DNS WIN	s
IP address	Subnet mask
192.168.1.10	255.255.255.0
CP/IP Address	? <mark>×</mark>
IP address:	192.168.5.61
Subnet mask:	255.255.255.0

Step2: Start the browser. In the address bar, enter the default IP address of the NVR: http://192.168.5.200;

Step3: If the NVR's firmware version is lower than V7x.9.0.3, it will directly display the login page, you can log in the NVR with default user name(admin) and default password(ms1234);

Milesight

If the NVR's firmware version is V7x.9.0.3 or above, you need to set the password first when using it for the first time. And you can also set three security questions for your device after activation. Then, you can log in the device with You can log in to the NVR with the username(admin) and a custom password.

Question1:	What's your father's name?	1
Answer1:		
Question2:	What's your father's name?	1
Answer2:		
Question3:	What's your father's name?	1
Answer3:		

Note:

- (1) Password must be 8 to 32 characters long, contain at least one number and one letter.
- (2) You can click the "forget password" in login page to reset the password by answering three security questions when you forget the password, if you set the security questions in advance.
- (3) If the HTTP Port number is not the default number 80, please input the IP address as follows: <u>http://IP:Port</u>.
- (4) If it's your first time to access to NVR via WEB, please install the plug-in. And please close the browser before installing the plug-in.

7.2.2 Live View

After logging in the NVR, you can add cameras to the NVR through the camera

settings. After adding cameras, please click on the Live View button to get the

preview.

Details are shown as follows:

Note: About other configurations, you can refer to the user manual of NVR.

7.3 Via Monitor

There is another way to access to NVR which you can use the HDMI cable to let

the NVR combine with monitor.

Details are shown as follows:

1) If the NVR's firmware version is V7x.9.0.3 or above, you need to set the password to activate the NVR when using it for the first time.
